LEUVEN, AUGUST 28-31, 1996

The Tenth Conference of the European Society of Biomechanics will be organised in Leuven (Belgium) by a National Committee including representatives from biomechanics groups from Leuven, Brussels and Ghent.

The Conference programme will include precourses on August 28th 1996. From August 29th until August 31st keynote lectures, parallel sessions, symposia and a special event to celebrate the twentieth anniversary of the ESB will be presented.

### List of topics

- bone research
- orthopaedic and dental implants
- biofluid mechanics
- molecular biomechanics
- prosthetics and orthotics
- rehabilitation engineering
- sports biomechanics
- locomotion
- biomechanics of trauma
- numerical simulations in biomechanics
- soft tissue biomechanics
- EU programmes, actions and projects

### Abstracts

The instructions for abstracts will be mailed together with the final announcement in June 1995. A one page abstract will be required by January 1st, 1996. The proceedings book with the selected papers will be made available at the Conference.
