**EDITORIAL:  
SOFTWARE SURVEY SECTION**

The introduction of the new Software Survey Section to BIORHEOLOGY is to encourage the open exchange of information on software programs unique to our professional field. With the rapid penetration of computers into academic and industrial institutions has come a parallel increase in the number of scientists and researchers designing their own software. The existence of much of this software remains unknown to even those of us who could most benefit from its use. We believe that it is of vital importance to our readers that such information be made available. We believe also that a professional journal is the best place to share such information. Your contribution would be most welcome.

The questionnaire on the following pages is designed to assist you in reporting on software that you may have developed or be in the process of developing. By completing this form, your information will reach thousands of your colleagues who may benefit from your work and may possibly offer suggestions for further enhancements to your software. Please complete the enclosed form and return it to:

Dr. Richard Skalak  
Department of Civil Engineering  
Columbia University  
Seeley W. Mudd Building  
New York, New York 10027 USA

We do not intend to review or comment on the contents of the questionnaire. It will be published as is in order to expedite the information cycle process. I would welcome any comments you may have.

NAME OF JOURNAL BIORHEOLOGY

**P E R G A M O N**  
SOFTWARE DESCRIPTION FORM

Title of software package: \_\_\_\_\_  
\_\_\_\_\_  
\_\_\_\_\_It is:  Application program     Utility     Other \_\_\_\_\_Specific area \_\_\_\_\_  
(e.g. Thermodynamics, Inventory Control)

Software developed for [name of computer(s)] \_\_\_\_\_

in [language(s)] \_\_\_\_\_

to run under [operating system] \_\_\_\_\_

and is available in the following media:

 Floppy disk/diskette. Specify:Size \_\_\_\_\_ Density \_\_\_\_\_     Single-sided     Dual-sided Magnetic tape. Specify:

Size \_\_\_\_\_ Density \_\_\_\_\_    Character set \_\_\_\_\_

Distributed by: \_\_\_\_\_

Minimum hardware configuration required: \_\_\_\_\_

Required memory: \_\_\_\_\_    User training required:  Yes     NoDocumentation:  None     Minimal     Self-documenting  
 Extensive external documentationSource code available:  Yes     NoLevel of development:  Design complete     Coding complete  
 Fully operational     Collaboration would be welcomedIs software being used currently?  Yes     No  
If yes, how long? \_\_\_\_\_    If yes, how many sites? \_\_\_\_\_Contributor is available for user inquiries:  Yes     No

Return completed form to:

Dr. Richard Skalak  
Department of Engineering  
Columbia University  
Seeley W. Mudd Building  
New York, New York 10027
