FLOW IN TUBES AND ARTERIES - A COMPARISON

D.W. Liepsch

It is regretted that due to an oversight in this office the following was inadvertently not included as a footnote on the title page of this article: This review contains major parts of the author's thesis, presented to the Technical University of Munich, in partial fulfilment of the requirements for the habilitation in obtaining the *venia legendi* in biofluid-mechanics in the Department of Mechanical Engineering.

It is also regretted that references 33, 34, 35, 36 and 42 were not cited correctly. They are:

33. Copley, A.L. (Ed.) Hemorheology. Proc. I. Internat. Conf., University of Iceland, 1986. Oxford-New York: Pergamon Press, 1968, 869 pp.
34. HARTERT, H.H. and COPLEY, A.L.(Eds.) Theoretical and Clinical Hemorheology. Proc. 2. Internat. Conf. Hemorheology, University of Heidelberg 1969. Berlin-Heidelberg-New York: Springer-Verlag, 1971, 426 pp.
35. COPLEY, A.L. The endo-endothelial fibrin lining. A historical account. In: A.L. Copley, Ed. The Endoendothelial Fibrin Lining. Symposium of the XII. European Conference on Micro-circulation, Jerusalem, Israel, September 1982. New York-Oxford: Pergamon Press, 1983. Second printing, 1984. Thrombosis Research, Suppl. V, pp. 1-26, 1983.
