**EDITORIAL:  
SOFTWARE SURVEY SECTION**

The purpose of the Software Survey Section in BIORHEOLOGY is to encourage the open exchange of information on software programs unique to our professional field. With the rapid penetration of computers into academic and industrial institutions has come a parallel increase in the number of scientists and researchers designing their own software. The existence of much of this software remains unknown to even those of us who could most benefit from its use. We believe that it is of vital importance to our readers that such information be made available. We believe also that a professional journal is the best place to share such information. Your contribution would be most welcome.

The questionnaire on the following pages is designed to assist you in reporting on software that you may have developed or be in the process of developing. By completing this form, your information will reach thousands of your colleagues who may benefit from your work and may possibly offer suggestions for further enhancements to your software. Please complete the enclosed form and return it to:

Dr. Andrew D. McCulloch  
Assistant Professor  
Applied Mechanics and Bioengineering  
University of California/San Diego  
La Jolla, CA 92093

We do not intend to review or comment on the contents of the questionnaire. It will be published as is in order to expedite the information cycle process. I would welcome any comments you may have.

NAME OF JOURNAL                                  **BIORHEOLOGY**                                 **P E R G A M O N P R E S S  
SOFTWARE DESCRIPTION FORM**Title of software program:                                   
                                Type of program: [ ] Application [ ] Utility [ ] Other                                 Category:                                  (ie. Psychological assessment,  
statistics, thermodynamics, etc.)Developed for (name of computer/s):                                 in (language/s):                                 to run under (operating system):                                 

available on: [ ] Floppy disk/diskette. Specify:

Size                  Density                  [ ] Single-sided [ ] Dual-sided

[ ] Magnetic tape. Specify:

Size                  Density                  Character set                 Hardware required:                                 Memory required:                  User training required: [ ] Yes [ ] NoDocumentation: [ ] None [ ] Minimal [ ] Self-documenting  
[ ] Extensive external documentation

Source code available: [ ] Yes [ ] No

Stage of development: [ ] Design complete [ ] Coding complete  
[ ] Fully operational [ ] Collaboration welcomedIs program in use? [ ] Yes How long?                  How many sites?                   
[ ] No

Is the contributor available for user inquiries: [ ] Yes [ ] No

Distributed by:                                 Cost of program:                                 Demonstration disk available? [ ] Yes Cost:                                   
[ ] No

(continued)

RETURN COMPLETED FORM TO:

Dr. Andrew D. McCulloch  
Assistant Professor  
Applied Mechanics and Bioengineering  
University of California/San Diego  
La Jolla, CA 92093[This Software Description Form may be photocopied without permission]

Description of what software does [200 words]:

Potential users: \_\_\_\_\_

Fields of interest: \_\_\_\_\_

# # # # #

Name of contributor: \_\_\_\_\_

Institution: \_\_\_\_\_

Address: \_\_\_\_\_

Telephone number: \_\_\_\_\_

# # # # #

Reference No. [Assigned by Journal Editor] \_\_\_\_\_

-----  
[The information below is not for publication.]

Would you like to have your program:

Reviewed? [ ]Yes [ ]No [ ]Not at this time  
Marketed and distributed? [ ]Yes [ ]No [ ]Not at this time
