

A LIST OF PUBLICATIONS ON HEMORHEOLOGY BY ROBIN FÅHRÆUS  
AND TRIBUTES TO HIM  
A Selection\*

The selection given below is an extension of the list of communications by Robin Fåhræus on hemorheology, given above under References in the biography of Robin Fåhræus by Patrick Sourander and Lars H. Breimer, as well as of communications referring to Robin Fåhræus.

1. FÅHRÆUS, R. Die Strömungsverhältnisse und die Verteilung der Blutzellen im Gefäßsystem. Klinische Wschr. 7, 100-106, 1928.
2. FÅHRÆUS, R. and LINDQVIST, T. Der Strömungswiderstand des Blutes in verschiedenen Teilen des Gefäßsystems. Uppsala: Uppsala Universitets Årsskrift, 1932.
3. FÅHRÆUS, R. Die erhöhte Senkungsgeschwindigkeit der roten Blutkörperchen und ihre Bedeutung für die antike Humoralpathologie. Bull. schweiz. Akad. medizin. Wissensch. 3, 67- , 1947.
4. FÅHRÆUS, R. The viscosity of normal and pathological blood (Abstract). See: Report on the First International Colloquium on Rheology. Problems in Biology. 26-28 July 1950, Lund, Sweden. In: A. Frey-Wyssling (Ed.), Deformation and Flow in Biological Systems. Amsterdam: North-Holland Publishing Company, 1952, pp. 498-499.
5. FÅHRÆUS, R. Die intravaskuläre Erythrozytenaggregation und ihre Einwirkung auf die Rheologie des Blutes. Rheologica Acta 1, 656-665, 1961.
6. COPLEY, A.L. (Ed.), Symposium on Biorheology. Proc. 4. International Congress on Rheology, Brown University, Providence, RI, USA, 26-30 August 1963, Part 4. New York-London: Interscience Publ. - John Wiley & Sons, 1965, 645 pp.
