

Note from Dr. G. W. Scott Blair

I FEEL that all members of the International Society of Biorheology and other readers of this Journal would wish to join with me in congratulating our President, Professor A. L. COPLEY, on the signal honour that he has recently received. He has been informed that the General Medical Faculty of the University of Heidelberg is to award him the Degree of Doctor of Medicine, *Honoris Causa*. Such a degree, from one of the world's most famous Universities, constitutes a great and indeed a well-deserved distinction.
