

# Keyword Index Volume 11 (2015)

AASHTO LRFD seismic design	3	maximum considered earthquake	131
accelerated bridge construction	33, 55	prefabrication	33, 55
bolted	33, 55	regular bridges	3
bridge deck	33, 55, 75, 87	reliability	75
bridges	55	San Francisco-Oakland Bay Bridge	95
composite bridges	105	seismic isolated bridges	131
connections	33, 55	service life	75
design codes bridges	33	serviceability	87
design-basis earthquake	131	SFOBB	95
determining full size performance		single mode method	3
from small scale testing	95	small scale fracture mechanics specimen testing	95
experimental data	33, 55	steel box girder	105
experimental safety evaluation	19	stress corrosion cracking	95
fatigue	87	strong winds	149
finite element	105	structural health monitoring	19
fire	105	survival analysis	75
fracture mechanics	95	thermal analysis	105
GFRP reinforcement	87	transverse earthquakes	3
hydrogen embrittlement	95	uniform load method	3
hysteretic damper	131	validation of small scale specimen	95
<i>in-situ</i> loading test	19	vehicle roll-over stability	149
loading vehicle	19		
long-span bridges	149		
low carbon steel rods	95
