

Notice of retraction

IOS Press has retracted the following publication from its online content: [Cancer Biomarkers, 21(1) (2017), 179-186,] 10.3233/CBM-170620

MiR-101 reduces cell proliferation and invasion and enhances apoptosis in endometrial cancer via regulating PI3K/Akt/mTOR

Suxia Zhang, Min Wang, Qirong Li and Ping Zhu*

Department of Obstetrics, Jinan Maternity and Child Care Hospital, Jinan, Shandong, China

The above article, originally published in Cancer Biomarkers volume 21, number 1, 2017, pp. 179-186, has been retracted from its online catalogue in consultation between the corresponding author and the publisher of Cancer Biomarkers.

The authors found substantial deficiency in the experimental design. Figures 2B, 2D and 3B were made by a third party and the results cannot be replicated.

In this light the journal cannot condone publication of this paper and has decided to retract it from its online catalogue.
