ANNOUNCEMENT

On 27-28 January 1992 we will hold a conference on fibrinogen as a major cardiovascular risk factor. This subject has become increasingly interesting for researchers in various aspects of atherosclerosis.

FIBRINOGEN - A CARDIOVASCULAR RISK FACTOR
Vienna, 27-28 January 1992

Correspondence regarding the conference should be addressed to:

Prof. E. Ernst, AKH
University Vienna
Department of Physical Medicine and Rehabilitation
Währinger Gürtel 18-20, A-1097 Vienna

Tel: 0222/40400-4330, FAX: 0222/40400-5281

ANNOUNCEMENTFIBRINOGEN - A CARDIOVASCULAR RISK FACTOR

Vienna, Austria 27-28 January 1992

The Conference "Fibrinogen - A Cardiovascular Risk Factor" will be held in Vienna on 27-28 January 1992.

AIM: To bring together scientists from various fields and discuss the many lines of evidence supporting the hypothesis that fibrinogen represents a cardiovascular risk factor

MAIN TOPICS: - Determinants of fibrinogen level
- Prognostic value of fibrinogen
- Fibrinogen in cardiovascular diseases
- Associations to cardiovascular risk factors
- Pathophysiological mechanisms
- Fibrinogen lowering drugs

SCIENTIFIC ORGANIZING COMMITTEE:

E. Ernst, Austria
W.B. Kannel, Framingham, USA
W. Koenig, Germany
G.D.O. Lowe, UK
T. Meade, UK
L. Wilhelmsen, Sweden

ADDRESS FOR CORRESPONDENCE:

Prof. Ernst
Dept. Phys. Med. Rehab.
University of Vienna (AKH)
Währinger Gürtel 18 - 20
A - 1097 Vienna
Tel: 0222/40400-4330, FAX: -5281
