CONTENTS OF BIORHEOLOGY

VOLUME 29, NUMBER 4

JULY-AUGUST 1992

CONTENTS

iii *Announcement*

Papers

- | | | |
|--|-----|---|
| P. Chiarelli, P.J. Basser, D. DeRossi
and S. Goldstein | 383 | The dynamics of a hydrogel strip |
| H.D. Papenfuss, J.F. Gross and
S.D. Yokota | 399 | Mathematical model of the filtration in the vascular
network of the ophidian glomerulus |
| T. Matsumoto, M. Kawai and T. Masuda | 411 | Influence of concentration and mannuronate/
gluronate ratio on steady flow properties of alginate
aqueous systems |
| D. Liepsch, M. Singh and M. Lee | 419 | Experimental analysis of the influence of stenotic
geometry on steady flow |
| G. Lorenzi, G.M. Böhm, E.T. Guimarães,
M.A. Costa Vaz, M. King and P.H.N. Saldiva | 433 | Correlation between rheologic properties and <i>in vitro</i>
ciliary transport of rat nasal mucus |
| | 441 | Contents of <i>Clinical Hemorheology</i> ,
Volume 11, Number 5 |
