

Author Index Volume 26 (2002)

The issue number is given in front of the page numbers.

- Ahmetov, S., see Cefle, K. (4) 265–271
- Aïssa Benhaddad, A., J.F. Monnier, C. Fédou, J.P. Micallef and J.F. Brun, Insulin-like growth factor-binding protein 1 and blood rheology in athletes (3) 209–217
- Amann, B., see Angelkort, B. (3) 145–154
- Angelkort, B., B. Amann and H. Lawall, Hemorheology and hemostasis in vascular disease. A pathophysiological review (3) 145–154
- Aznar, J., see Vayá, A. (1) 41– 53
-
- Balci, M., see Cefle, K. (4) 265–271
- Baskurt, O.K., see Hacıoglu, G. (1) 27– 32
- Baskurt, O.K., see Temiz, A. (3) 189–193
- Baumann, M., see Joern, H. (4) 277–293
- Belada, D., see Bláha, M. (4) 273–275
- Belhabas, H., see Brun, J.F. (4) 231–239
- Blackwell, T., see Shand, B. (4) 249–255
- Bláha, M., M. Skořepová, V. Mašín, I. Špásová, Z. Paráková, J. Malý, P. Žák, D. Belada and A. Turková, The role of erythrocytapheresis in secondary erythrocytosis therapy (4) 273–275
- Bogar, L., Hemorheology and hypertension: Not “chicken or egg” but two chickens from similar eggs (2) 81– 83
- Bor-Kucukatay, M., see Hacıoglu, G. (1) 27– 32
- Born, G.V.R., R. Medina, S. Shafi and L.E. Cardona-Sanclemente, Endothelial factors in the flux of atherogenic plasma proteins into artery walls (2) 107–116
- Bouix, D., see Caillaud, C. (3) 175–181
- Brun, J.-F., Exercise hemorheology as a three acts play with metabolic actors: Is it of clinical relevance? (3) 155–174
- Brun, J.F., Hormones, metabolism and body composition as major determinants of blood rheology: Potential pathophysiological meaning (2) 63– 79
- Brun, J.F., H. Belhabas, M.Ch. Granat, C. Sagnes, G. Thöni, J.P. Micallef and J. Mercier, Postexercise red cell aggregation is negatively correlated with blood lactate rate of disappearance (4) 231–239
- Brun, J.F., see Aïssa Benhaddad, A. (3) 209–217
- Brun, J.F., see Dumortier, M. (4) 219–229
-
- Caillaud, C., P. Connes, D. Bouix and J. Mercier, Does haemorheology explain the paradox of hypoxemia during exercise in elite athletes or thoroughbred horses? (3) 175–181
- Caimi, G., see Lo Presti, R. (4) 241–247
- Cardona-Sanclemente, L.E., see Born, G.V.R. (2) 107–116
- Catania, A., see Lo Presti, R. (4) 241–247

- Cefle, K., S. Tamer, A.A. Kaymaz, M. Balci, S. Ahmetov, S. Palanduz, S. Ozturk, N. Salmayenli and V. Onar, The effect of atorvastatin on hemorheological parameters in rabbits fed on a normal diet (4) 265–271
- Cefle, K., see Tamer, S. (1) 9–14
- Connes, P., see Caillaud, C. (3) 175–181
- Corella, D., see Vayá, A. (1) 41–53
- Dabrowski, Z., see Nowak, E. (2) 91–97
- D'Arrigo, M., see Foresto, P. (3) 137–144
- Draygin, S.V., see Muravyov, A.V. (3) 183–188
- Dumortier, M., A. Pérez-Martin, E. Pierrisnard, J. Mercier and J.F. Brun, Regular exercise (3×45 min/wk) decreases plasma viscosity in sedentary obese, insulin resistant patients parallel to an improvement in fitness and a shift in substrate oxidation balance (4) 219–229
- Ercan, M., D. Konukoğlu, T. Erdem and S. Önen, The effects of cholesterol levels on hemorheological parameters in diabetic patients (4) 257–263
- Erdem, T., see Ercan, M. (4) 257–263
- Eremin, N.N., see Muravyov, A.V. (3) 183–188
- Estellés, A., see Vayá, A. (1) 41–53
- Fédou, C., see Aïssa Benhaddad, A. (3) 209–217
- Ferrando, F., see Vayá, A. (1) 41–53
- Filippini, F., see Foresto, P. (3) 137–144
- Foresto, P., M. D'Arrigo, L. Racca, F. Filippini, R. Gallo, J. Valverde and R.J. Rasia, Comparative analysis of aggregate shapes by digitized microscopic images. Application to hypertension (3) 137–144
- Gallo, R., see Foresto, P. (3) 137–144
- Gilchrist, N., see Shand, B. (4) 249–255
- Gobejishvili, L., see Mchedlishvili, G. (2) 99–106
- Granat, M.Ch., see Brun, J.F. (4) 231–239
- Hacioglu, G., O. Yalcin, M. Bor-Kucukatay, G. Ozkaya and O.K. Baskurt, Red blood cell rheological properties in various rat hypertension models (1) 27–32
- Heilmann, L., see von Tempelhoff, G.-F. (1) 55–61
- Hommel, G., see von Tempelhoff, G.-F. (1) 55–61
- Hu, J., see Li, C. (2) 117–123
- Hu, J., see Yu, H. (3) 199–207
- Hu, Q.-H., see Ohnishi, Y. (1) 15–26
- Joern, H., N. Kahn, M. Baumann, W. Rath and H. Schmid-Schoenbein, Complexity analysis of placental blood flow in normal and high-risk pregnancies (4) 277–293
- Kahn, N., see Joern, H. (4) 277–293
- Kaymaz, A.A., see Cefle, K. (4) 265–271
- Konukoğlu, D., see Ercan, M. (4) 257–263
- Kuro, M., see Ohnishi, Y. (1) 15–26
- Lawall, H., see Angelkort, B. (3) 145–154
- Levin, V.N., see Tikhomirova, I.A. (3) 195–198

- Li, C., Y. Zeng, J. Hu and H. Yu, Effects of fluid shear stress on expression of proto-oncogenes c-fos and c-myc in cultured human umbilical vein endothelial cells (2) 117–123
- Li, C., see Yu, H. (3) 199–207
- Lo Presti, R., D. Sinagra, M. Montana, A.M. Scarpitta, A. Catania and G. Caimi, Haemorheological profile in *metabolic syndrome* (4) 241–247
- Malý, J., see Bláha, M. (4) 273–275
- March, R., see Shand, B. (4) 249–255
- Martínez, M., see Vayá, A. (1) 41– 53
- Mašín, V., see Bláha, M. (4) 273–275
- Mchedlishvili, G., M. Varazashvili and L. Gobejishvili, Local RBC aggregation disturbing blood fluidity and causing stasis in microvessels (2) 99–106
- Medina, R., see Born, G.V.R. (2) 107–116
- Meiselman, H.J., see Muravyov, A.V. (2) 125–135
- Mercier, J., see Brun, J.F. (4) 231–239
- Mercier, J., see Caillaud, C. (3) 175–181
- Mercier, J., see Dumortier, M. (4) 219–229
- Micallef, J.P., see Aïssa Benhaddad, A. (3) 209–217
- Micallef, J.P., see Brun, J.F. (4) 231–239
- Mira, Y., see Vayá, A. (1) 41– 53
- Monnier, J.F., see Aïssa Benhaddad, A. (3) 209–217
- Montana, M., see Lo Presti, R. (4) 241–247
- Muravyov, A.A., see Muravyov, A.V. (3) 183–188
- Muravyov, A.V., S.V. Draygin, N.N. Eremin and A.A. Muravyov, The microrheological behavior of *young* and *old* red blood cells in athletes (3) 183–188
- Muravyov, A.V., H.J. Meiselman, V.V. Yakusevich and A.V. Zamishlayev, Effects of antihypertensive therapy on hemorheological profiles in female hypertensive patients with initially low or high whole blood viscosity (2) 125–135
- Muravyov, A.V., see Tikhomirova, I.A. (3) 195–198
- Niimi, H., see Ohnishi, Y. (1) 15– 26
- Nowak, E., G. Wyrwicz, Z. Dabrowski, O. Smolenski and K. Spodaryk, Rheological and biochemical examination of red blood cells after treatment with different pharmacological and toxic substances (2) 91– 97
- Ohnishi, Y., Q.-H. Hu, S. Yamaguchi, M. Kuro and H. Niimi, Cerebral microcirculatory changes in rat with a cardiopulmonary bypass using fluorescence videomicroscopy (1) 15– 26
- Onar, V., see Cefle, K. (4) 265–271
- Önen, S., see Ercan, M. (4) 257–263
- Ornstein, D.L. and L.R. Zacharski, Activity of heparins in experimental models of malignancy: Possible explanations for anticancer effects in humans (1) 33– 40
- Ozkaya, G., see Hacioglu, G. (1) 27– 32
- Ozturk, S., see Cefle, K. (4) 265–271
- Palanduz, S., see Cefle, K. (4) 265–271
- Palanduz, S., see Tamer, S. (1) 9– 14
- Paráková, Z., see Bláha, M. (4) 273–275
