

INTERNATIONAL SYMPOSIUM ON NEW METHODS IN BIORHEOLOGY

Satellite Meeting of the 5. International Congress of Biorheology
Nancy, France, 17-18 August 1983

HONORARY COMMITTEE:

A.L. Copley, A. Silberberg and S. Witte

ORGANIZING COMMITTEE:

President	J.F. Stoltz
Vice Presidents	C. Kopp
	M. Lucius
Secretary Generals	P. Drouin
	E. Puchelle

COMMITTEE MEMBERS:

J.C. André (Nancy), J.-M. Bidet (Angers), M. Boisseau (Bordeaux), B. Genetet (Rennes), M. Gueguen (Rennes), J.-C. Healy (Saint-Etienne), I. Juhan (Marseille), C. Oddou (Paris), D. Quemada (Paris), P. Sadoul (Nancy) and F. Streiff (Nancy).

SCIENTIFIC PROGRAM:

The scientific program consists of invited lectures, volunteers' papers, poster and video demonstrations on "New Methods in Biorheology". Three main topics are planned. They are: 1. Biorheological methods of systems. 2. Methods available for studying continuous media in biorheology (blood, blood vessels, mucus, sperm,...). 3. Microrheological and molecular rheological methods in biorheology (blood cells, bacteria, membrane, proteins, microsystems rheology...).

Poster sessions, including short oral poster discussions will be organized at a time where it does not coincide with other events. The official language of the symposium is English.

PLACE OF THE SYMPOSIUM:

The Conference takes place in the Conference Room of the "Centre Régional de Transfusion", Brabois - 54500 Vandoeuvre-Lés-Nancy, France. The telephone number is (8) 351.06.41.

TRANSPORTATION TO BADEN-BADEN:

By bus from Nancy to Baden-Baden on the morning of August 19.

The Program and the Abstracts of the Symposium Papers will be available to the participants at the time of registration on August 17. The Proceedings of the Symposium will be published as Supplement I of BIORHEOLOGY.
