

SPECIAL ISSUE  
**ERYTHROCYTE AGGREGATION**  
**Proceedings of an International Symposium**  
**Geneva, Switzerland, 11 January 1986**

CONTENTS

J.F. Stoltz	1	<i>Foreword</i>
A.L. Copley	3	<i>Introduction</i> On Erythrocyte Aggregation and Desaggregation
		<i>Papers</i>
J.F. Stoltz and M. Donner	15	Hemorheology: Importance of erythrocyte aggregation
P. Boivin	25	Biochemical parameters of red blood cell deformability
M. Donner, S. Muller and J.F. Stoltz	33	Molecular rheology: Definition, approach methods and clinical aspects
C. Lacombe and J.C. Lelièvre	47	Interpretation of rheograms for assessing RBC aggregation and deformability
M. Lucius and J.F. Stoltz	63	Importance of erythrocyte aggregation on the visco-elastic and thixotropic properties of blood
S. Chien and L.A. Sung	71	Physicochemical basis and clinical implications of red cell aggregation
G.B. Nash, R.B. Wenby, S.O. Sowemimo-Coker and H.J. Meiselman	93	Influence of cellular properties on red cell aggregation
J.F. Stoltz, F. Paulus and M. Donner	109	Experimental approaches to erythrocyte aggregation
J.A. Dormandy and G. Nash	119	Importance of red cell aggregation in venous pathology
M.C. Laprevote-Heully, A. Larcen, P.E. Bollaert, S. Muller, M. Donner, F. Streiff and J.F. Stoltz	123	Hemorheological disturbances during thrombo-embolic states and various attacks
J.F. Stoltz and M. Donner	131	Erythrocyte aggregation: Therapeutic aspects
S. Chien	137	Summary and conclusions
	141	Announcement
	I	Software Survey Section

## CONTENTS

- |  |     |   |
|--|-----|---|
| A.L. Copley and S. Witte   | 143 | <i>Editorial</i><br><i>Proceedings of the Sixth International Congress of Biorheology, Vancouver, B.C., Canada, 27 July to 1 August, 1986. Editors: A.L. Copley and H. Goldsmith</i><br><i>Part III</i><br><i>Symposium: "Current Developments in Clinical Hemorheology." Guest Editor: H.J. Meiselman; Editor: G.D.O. Lowe</i> |
| S. Forconi, D. Pieragalli, M. Guerrini and T. DiPerri  | 145 | Hemorheology and peripheral arterial diseases   |
| J.P. Isbister  | 159 | The stress polycythaemia syndromes and their haemorheological significance  |
| G.D.O. Lowe, C.D. Forbes and W.S. Foulds   | 181 | Haemorheology and retinal disorders   |
| G.B. Nash and H.J. Meiselman   | 189 | Cellular rheology of sickle cell disease  |
| H. Schmid-Schönbein and P. Teitel  | 203 | In vitro assessment of "covertly abnormal" blood rheology; critical appraisal of presently available microrheological methodology. A review focusing on diabetic retinopathy as a possible consequence of rheological occlusion   |
| J. Stuart and I. Juhan-Vague   | 239 | Erythrocyte rheology in diabetes mellitus<br><i>Proceedings of the Fourth European Conference on Clinical Hemorheology, Siena, Italy, 1985. Editors: A.L. Copley, T. DiPerri and S. Forconi</i><br><i>Part V</i><br><i>Conference Communications</i>  |
| R. Cappelli, S. Pecchi, D. Pieragalli, A. Acciavatti, C. Galigani, G.L. Messa, A. Vittoria, M. Guerrini, S. Forconi and T. DiPerri | 247 | Effect on rheological and some peripheral haemodynamic parameters of defibrotide in POAD patients   |
| M. Materazzi, L. Ralli, A. Bianciardi, L. Domini, A. Monaci, D. Pieragalli, A. Acciavatti, C. Galigani, S. Forconi and T. DiPerri  | 253 | Arterial-venous differences in metabolic and rheological parameters in peripheral obliterative arterial disease patients  |
| A. Matrai, R.B. Whittington and E. Ernst   | 261 | A simple method of estimating whole blood viscosity at standardized hematocrit  |

V. Micheli, D. Pieragalli, P. Toti, S. Forconi, M. Guerrini, A. Acciavatti, C. Galigani, G. Weber, C. Ricci and T. DiPerri	267	Haemorheological changes during human erythrocyte life-span
D. Pieragalli, A. Acciavatti, C. Galigani, G.L. Messa, P. Bardi, M. Guerrini, S. Forconi and T. DiPerri	273	Interrelationship between whole blood and red cell filterability
		<i>Round Table: The rationale of rheological pharmacological strategy-II. Editor: T. DiPerri</i>
B. Angelkort, P. Spürk, A. Gerlach and H. Kieseewetter	277	Significance of fibrinogen with regard to blood fluidity. Pharmacological approaches for lowering fibrinogen
		<i>Communications (not associated with the above Congress or Conference)</i>
B. Miller and L. Heilmann	287	Hemorheological parameters during chemotherapy
P. Mills and P. Snabre	295	Particle migration connected to rheological mechanisms in a flowing aggregated suspension. Application to white blood cells margination
J. Bodis, L. Bogar, K. Zambo, Z. Nemessanyi, M. Tekeres, I. Csaba and A. Matrai	305	Blood viscosity and placental perfusion in intrauterine growth retardation
J.E. Tooke and D.W. Milligan	311	Capillary blood flow in haematological disorders: The role of the red cell, white cell, and plasma viscosity
L. Judkiewicz, R. Ciszewski and G. Bartosz	321	Susceptibility of erythrocytes to centrifugal packing. A survey of healthy population and of diabetic patients
E. Ernst, E. Heider, T. Schmid and A. Matrai	331	Enhanced physical performance through hemoconcentration?
G.A. Barabino, L.V. McIntire, S.G. Eskin and M.M. Udden	339	Effect of pentoxifylline on adherence of sickle erythrocytes to vascular endothelial cells
R.E. Smith, D.P. Jones, S.A. Bowcock and E.D. Cooke	351	The electrophoretic mobility of erythrocytes from patients with primary Raynaud's phenomenon

## VOLUME 7, NUMBER 5

1987

## CONTENTS

*Papers*

A.M. Ehrly and H. Fuchs	665	Influence of urokinase on the flow properties of blood
F.-I. Liao, W. Li and S. Huang	671	Hemorheological investigation of clotting by rotational viscometer
L. Heilmann and H. Hirche	679	Hemorheology of pre-eclamptic patients during naftidrofuryl-treatment
U. Kässer, G. Altröck and P. Heimburg	687	Effect of menstrual cycle on viscoelastic parameters
G. Caimi, G. Savettieri, B. Fierro, A. Catania and A. Sarno	695	Multiple sclerosis: Haemorheological pattern
T.J. Starc, E.A. Schmalzer and S. Chien	699	Effect of beta adrenergic agents on granulocyte deformability
C. Berling, C. Lacombe and J.C. Lelievre	707	Hemorheologic factors and post renal transplant complications
L. Bogar, I. Morison, A. Matrai, M. Tekeres G.B. Nash, P.T. Flute and J.A. Dormandy	715	New analysis of the effect of white blood cells on blood filtration
	723	<i>Report on The 3rd International Symposium on Clinical Hemorheology</i> J. Martins e Silva – Chairman of the Symposium
	743	<i>Contents of BIORHEOLOGY, Volume 24, Number 4</i>
