EDUCATION AND TRAINING FOR LIBRARIANSHIP AND INFORMATION WORK: ANNUAL BIBLIOGRAPHY, 1988

Alan J. CLARK

Department of Information and Library Studies Library, University College of Wales, Aberystwyth, Llanbadarn Fawr, Aberystwyth, Dyfed SY23 3AS, UK

Received 5 June 1989

This is the third year of this annual bibliography of work in librarianship and information science education and training. The bibliography covers works published in 1988 and is international in scope.

The arrangement is by subject and then alphabetical by author or title, with a contents list facilitating broad subject access. The name index includes authors and name subject entries for individuals, organizations and some other entities. The alphabetical subject index includes entries for names of countries and regions. A list of periodical title abbreviations used is also supplied.

As in previous years, compilation of the bibliography has used in the main the collections and resources of the library of the College of Librarianship Wales. 1988 marks the twenty-fifth anniversary of the founding of the College and also the start of a new era in its life. By the time this bibliography is published, in fact as of August 1, 1989, the College will have merged with the University College of Wales, Aberystwyth. This represents the culmination of a process of gradual strengthening of the relationship between the two institutions which has been taking place over a number of years. CLW will be the Department of Information and Library Studies of the University. It will also be one of the largest departments in the University. CLW Library, which has a collection of international stature in its subject field, will continue to serve the teaching and research needs of the Department, as its Departmental Library, and will play an important role in its teaching programmes. It will also continue to provide library facilities and information services for library and information professionals within Wales and beyond.
