

2nd Autumn-Seminar on Pathology and Biomedicine in Borstel 6-7 October 2000 Borstel

The second autumn-seminar in Borstel, presented by the Clin. & Exp. Pathology of the Research Center Borstel and the Institute for Pathology of the Medical University Lübeck. The seminar will be held on the major topic „From Theater to the Bench: Molecular Biology using Histological Specimens". A broad spectrum of speakers from different fields will give a state of the art in molecular pathology. The registration fee is DM 60 (DM 35 for students and post-docs) for both days including the get together evening with buffet. Daily cards for October 7th are also available. We call for the submission of abstracts (major topic as well as free abstracts) which will be presented as posters and published in the Electronic Journal of Pathology and Histology.
