ERRATA TO THE REPORTING OF THE 1995 WCCC

Ernst A. Heinz¹ has been kind enough to draw our attention to a regrettable omission in our publishing the first round of results of the 8th World Computer-Chess Championship (*ICCA Journal*, Vol. 18, No. 2, p. 103). On p. 103, one game ZEUS 3.0 - NIGHTMARE was inadvertently duplicated, whereas the game DARK THOUGHT - PANDIX in the same round was not published at all. We hasten to supply the information missed by our readers.

Also due to Mr. Heinz's diligence we now see that the final standings on p. 102 of the same issue might well have been published in a better fashion, strictly following the SOP (sum of opponents' points) criterion, by which the ranking would have been more immediately visible. In order to perpetuate the true record, a corrected version of the final standings table follows as an erratum to the one shown in the previous issue.
