INFORMATION FOR CONTRIBUTORS

Submission of material
Contributions to the Journal of up to 4000 words are welcome in any form. Short contributions (2000 - 3000 words) are preferred. Longer papers of striking originality and cogency may be considered, provided the authors consent to publication in instalments. Authors are urged to supply full references, including the names and location of publishers and ISBN or ISSN numbers where applicable.

While any form is welcome, efficiency of production imposes an editorial preference for some forms usual in electronic communications. These preferred forms are
- Email in ASCII, TEX or Troff format, mailed to icca@cs.rulimburg.nl
- Floppy disks in any of the above formats or in MS-DOS format or suitable for WordPerfect (version 5.1 or convertible) to be forwarded to University of Limburg, The ICCA Journal, Dept, of Computer Science, P.O. Box 616, 6200 MD Maastricht, The Netherlands.

Figures not conveniently accommodated in any of the above formats may be submitted either in PostScript format or as camera-ready hard copy. We urge contributors not to hesitate to submit their material in the form which most clearly represents the authors' wishes as to lay-out and presentation.

Abstracting and indexing
Contributors may be interested to know that the *ICCA Journal*, as of Vol. 10, No. 1 (1987), is a source for the Institute for Scientific Information® (ISI) for inclusion in the CompuMath Citation Index® (CMCI®), the Automatic Subject Citation Alert (ASCA®) and SCISEARCH®, ISFs on-line database. Autlior abstracts are now also available in Current Contents on Diskette®, and in on-line files such as SCISEARCH® and Current Contents Search®. Moreover, the Journal is also a source for the Information Company R.R. Bowker for inclusion in the International Serials Database which is a source for Ulrich's International Periodicals Directory and the DIALOG on-line service.

Being included in the CMCI®, the *ICCA Journal* is one of the 400 Journals in mathematics, computer science, statistics, operations research, and related disciplines which is so abstracted (articles are also available as tearsheets); this means that the Journal now is accessible in (on-line) database form.
