

## Acknowledgement

---

The 1999 Annual Conference of the National Federation of Abstracting and Information Services, (NFAIS) was held in Philadelphia, PA, USA on February 21–24.

This year NFAIS served as the focus for the interests of allied societies in the library and information world. The sessions were aimed at Strategic Imperatives for Collections of Information – A Meeting of the Minds.

Through the courtesy of NFAIS, ISU has been given permission to publish summaries of all sessions. Our thanks to Richard Kaser, Executive Director of NFAIS and to Wendy Wicks and Anthony Trepido of NFAIS who provided the electronic records of these summaries.
