

Keyword Index Volume 20 (2012)

aging	229	endogenous opioid	205
ammonia	47	endurance	85
anaerobic performance	47	evertors	173
ankle fractures	173	exercise	205
ankle joint	167	external rotators	17
anterior cruciate ligament	71		
anthropometry	23	female	221
asymmetry	13	flexible flatfoot	167
athlete	85	football	293
average power	51	free-throw	189
		functional assessment	13
		functional ratio	17
basketball	61, 189		
blood glucose level	205	gender	23
body mass	51	gender differences	115
bone mass	221	GPS	77
cardiorespiratory data	107	heart rate	37
case study	1		
cerebral palsy	107	ice skating	85
change-of-direction speed	211	injury prevention	13
children	275	inorganic phosphate	47
college sports	115	internal rotators	17
competition	77	invertors	173
concentric	129	isokinetic	167, 181, 221, 255
core stability	141	isokinetic knee extension	155
countermovement	23	isokinetic studies	229
cycle ergometer	37	isokinetics	41, 239, 275
cycling performance	99	IsoMed 2000	31
		IsoMed 2000-dynamometer	149
delta lactate	51	isometric and isokinetic maximum strength testing	149
delta opioid receptor	205	isometric test	107
dynamic control ratios	173		
dynamometry	1, 301	joint position sense	17, 189
		judo	13, 41
eccentric	129	knee	189
eccentric strength	211	knee extension	31
elbow	41, 129	knee flexion and extension	149
electromyography	5, 121	knee injury	71
elite	77	knee muscles basketball	293
elliptical Wingate anaerobic test	37		
EMG power spectra	155		

lactate	37, 47	reproducibility of results	267
linear speed	211	research design	267
longitudinal measurement	107	resistance training	129
low back pain	255	ribose	47
lower-limb imbalance	211	rowing ergometer	197
		rugby	77
maximum strength testing	31	running speed	61
measurement	301		
motor fitness	197	shoulder	41, 189
muscle	221, 267, 301	side-to-side deficit	211
muscle activation	71	skeletal	267
muscle strength	41, 91, 173, 229	soccer	115, 181
muscle strength dynamometer	91, 267	somatic traits	197
muscle tonus	91	sports activities	221
		strength	85, 129, 141
naltrindole	205	strength exercises	61
nervous system diseases	267	stretching	61
neuromuscular fatigue	121	stroke	91, 267
neuromuscular fitness	115	surface EMG	155
pattern classification	5	throw-in	181
peak torque	181, 189, 255	torque	121
pedaling technique	99	torque-angle relationship	129
performance	85	training program	13
pH	47	trunk	255
pilates	141		
polymyositis	1	validity	255
postpoliomyelitis syndrome	267	velocity	121
postural stability	141	ventilatory threshold	99
power	61	volleyball	293
practice-based improvement	31		
proprioception	167	wavelet	5
		winter sports	85
quadriceps muscle	155	women men	71
		workload	99
rat	205	wrestling	13
rehabilitation	267		
reproducibility	31, 149, 239	young women	197
