ACKNOWLEDGMENTS

The authors wish to thank Wellness Nordic A/S for providing the NSC for this study. We wish to thank patients and caregivers for their participation in the study. There was no financial compensation for either the patients or the staff of the two residences that participated in the study. The NSC was provided for the study purposes only and was removed by Wellness Nordic A/S from the nursing homes at the end of the study.

FUNDING

Research reported in this publication was supported in part by Arjo Huntleigh AB, Malmö, Sweden. The funders of the study had no role in study design, data collection, data analysis, data interpretation, or writing of the report.
