

Keyword Index Volume 25 (2012)

accelerometer	177	FFT	117
active SLR	27	fibromyalgia	245
adjacent segment degeneration	235	flat feet	21
anterior cruciate ligament	291	functional disability	149
anthropometry	253		
anxiety	253	gait symmetry	269
Arabic	201	glucosamine sulfate	275
asymmetry	67	ground reaction force	21
body fat	253	handrails	33
body mass index (BMI)	143	heights	33
bone mineral density (BMD)	143	hydrotherapy	225
capacity	177	idiopathic inflammatory myopathy	231
cardiovascular fitness	81	instability	123
carpal tunnel syndrome	209	internal oblique	239
case report	235	isokinetic exercise	81
cauda equina syndrome	1	isometric contraction	95
cervical spine	67		
coblation nucleoplasty	235	kinesio tape	187
connective tissue	261	knee cartilage	275
conservative treatment	131	knee joint	117
core stability	291	knee osteoarthritis	193
cortisol	245		
creatinin kinase	231	landing	21
cross-sectional area	171	lateral epicondylitis (tennis elbow)	131
		likelihood ratios	215
depression	5, 245, 253	LLLT	13
DHEA-S	245	low back pain	73, 123, 201
diagnosis	131	lumbar disc herniation	1
dry needling	285	lumbar multifidus muscle	171
		lumbar segmental instability	149
elderly	33		
electromyography	27, 95, 231	magnetic resonance imaging	275
EMG	21	manual therapy	225
endurance	123	mechanical neck disorder	47
exercise	225, 275	Mini-Osteoporosis Quality of Life Questionnaire	89
		motion analysis	21
falls	55	mud pack therapy	193
fatigue	95	multiplied linear dimension	171
fear avoidance belief questionnaire	201	muscle	67

muscle strength	123	scapular elevation taping	187
muscle thickness	239	semispinalis capitis	67
muscle timing	27	sensitivity	215
musculoskeletal physiotherapy	103	sensorineural hearing loss	157
myofascial pain	285	shoulder	13
myofascial pain syndrome	261	single-strap bag	269
		sit-to-stand movement	33
neck movement	47	size	67
neurobrucellosis	157	sound	117
neuroplasticity	291	spastic paraparesis	157
		specificity	215
obesity	143, 253	sphincter dysfunction	1
osteitis pubis	225	spine	109, 161, 177
osteoarthritis	89, 117, 143, 275	stabilization	73
outcomes	177	stabilization exercise	109
		stabilizing exercise	149
pain	13, 55, 149, 245, 261	straight leg raise test	215
pain pathology	103	straight leg raising test	215
pain terminology	103	strap-length	269
pelvic	161	stretching program	161
percentage of change in	239	systematic review	215
performance	177		
physical activity	177	teachers	5
physical fitness	253	temporomandibular joint	285
physiotherapy	13, 73	tendonitis	13
polymyositis	231	three-dimensional electromagnetic	47
postmenopausal osteoporosis	55	torque	95
postural stability	109	transversus abdominis	239
posture	55	triceps surae	95
pressure algometry	285	trunk motion	269
pressure pain threshold	187		
progressive resistive exercise	81	ultrasonography	171
		ultrasound	13
quadriceps	81	ultrasound imaging	67
quality of life	5, 193	upper limb tension test	209
		upper trapezius muscle	187
rehabilitation	73, 177, 231		
relative contribution ratio	239	validation	89
reliability	201, 209	validity	201
risk factors	5	vertebral fracture	55
sacroiliac pain	27	work	161
scapular depression syndrome	187	work-related pain	5
