

Keyword Index Volume 27 (2014)

abdominal muscles	339, 481	cognitive behavior therapy	563
adolescent idiopathic scoliosis	331	congenital anomaly	107
adults	521	conservative treatment	111
adverse effects	485	content analysis	93
aged	17	corrective spinal exercise	331
aggressive hemangioma	125	creep	445
aging	153	curvature	71
algometer	197		
amputation	275	degenerative spondylolisthesis	41, 371
anatomy	223	depression	435, 553
ankle muscles	47	descending inhibitory pain mechanism	377
anterior	499	disability	33, 315, 435, 553
anteroposterior curvatures	85	disc herniation	167
anteroposterior vertebral curvatures	513	double level	499
anthropometric indices	291	dynamometer	299
anticipatory postural adjustments	545		
arthropathy	307	eccentric contraction	47
articular	493	electromyography	55, 355, 481, 531
asymmetries	85	electrotherapy	191
athletes	513	embolization	125
		endurance	153, 291, 435, 553
back extensor muscles	291	endurance exercise	419
back muscles	153	epidural injection	181
back pain	107, 281	erector spinae	355
back school	553	ergonomics	25
backache	399	etiology	111, 117, 153, 383, 445, 553
balance	141, 231	exercise interventions	7
Biering-Sorensen	173	exercise therapy	521
Biering-Sorensen holding time	291		
blood circulation	203	facet joint	107
body image	463	fear avoidance belief	213, 563
botulinum toxin type A	485	fear of falling	77
		fear-avoidance belief	33
Carpal Tunnel Syndrome	1	female athletes	85
cervical radiculopathy	167	femoral cartilage	117
child	307	fibromyalgia	167
chronic ankle instability	47	fibromyalgia syndrome	537
chronic low back pain	435, 553	firefighters	427
classification system	409	floor material	361
coccygodynia	349	forward head posture	131
co-contraction	55	frequency	197

function	247	median nerve F waves	1
functionality	41, 371	medical laboratory technicians and occupational problems	453
gait	307	microwave diathermy	435
Ganglion of Impar	349	mobile device	161
groin pain	103	mobilization	247
hamstring	63	monitoring	399
handball training	85	motivational interviewing	93
hemophilia	307	motor control	545
high-heeled shoes	355	multifidus atrophy	371
high-power pain threshold	17	multi-stage test	173
hip	299	muscle fatigue	203
hip osteoarthritis	103	muscle strength	553
hypoalgesic	377	muscles	427
iliopsoas bursitis	103	musculoskeletal disorders	453
inception cohort	281	myelopathy	125
intensity	361	myofascial pain syndromes	17, 485
interbody fusion	499	neck pain	493
interventional ultrasound	17	nerve conduction studies	1
isokinetic	147	neuroma	275
isokinetic dynamometer	419	neuromuscular electrical stimulation	191
isometric contraction	203	neuronal plasticity	463
iTune goniometer	161	nonspecific low back pain	475
joint manipulation	377	Nottingham Health Profile	391
Kinesio Tape	203	observational assessment	131
knee	117	occupational	281
knee osteoarthritis	77, 521	occupational assessment	399
leg pain	361, 409	osteitis pubis	147
lifestyle	63	osteoporosis	391
lifting	71	pain	41, 77, 247, 371, 435, 553, 563
lipomatosis	181	pain relieving	377
locus of control	563	patellofemoral pain syndrome	299
low back	545	pathology	111
low back pain	25, 33, 63, 141, 153, 173, 213, 231, 339, 409, 463, 507, 531, 563	pelvic floor muscles	339
low back pain coaching	93	pelvis incline	531
low energy laser	315	photogrammetry	131
lower back pain	399	physiotherapy	191
lumbar flexibility	321	platform height	361
lumbar lordosis	63	position	445
lumbar spine	107, 445	positron emission tomography	239
lumbopelvic neutralization	231	postural control	141
magnetic resonance imaging	223	postural correction	7
massage therapy	475, 521	posture	33, 85, 453, 513, 531
mean endurance time	291	posture stability	321
		posturography	141
		pressure pain threshold	197, 377
		pressure pain tolerance	197
		prevalence	167

prognosis	281	stabilization exercise	41
progressive resistance exercise	419	stabilizing exercise	481
prone bridge test	321	stabilometry	141
proprioception	203	stable seat	531
pulsed radio frequency	349	stair ability	77
		strength	41, 299, 321, 371
QST	409	subacromial impingement syndrome	315
QUALEFFO-41	391	subtypes	1
qualitative	93	superficial thermal agents	191
quality of life	435, 507, 537, 553		
quality of life scales	391	temporomandibular disorders	493
quality of sleep	537	tender points	167
quantitative sensory testing	409	therapeutic exercises	247
questionnaire	213	therapeutic ultrasound	191
		thickness	117
radiculopathy	181	thoracal vertebra	125
range of motion	71, 161, 247, 445, 493	thoracic hyper-kyphosis	7
ratio	147	thoracolumbar fracture	499
recovery expectation	93	total knee replacement	77
rehabilitation	153, 563	transcutaneous electrical nerve stimulation	197
reliability	161, 339, 463	treatment	383
resources	281	trigger points	17
restless legs syndrome	537	trunk muscle	55, 531
review	383	trunk muscle strength	435
Rippstein pluri-meter	513	trunk muscles	147
risk factors	25, 281		
routine physical therapy	475	ultrasonography	103, 117, 427
		ultrasound images	55
sacralization of L5	107	ultrasound treatment	315
Scheuermann's disease	383	ultrasound-guided injection	275
scoliosis	111	unstable seat	531
self-induced perturbation	545		
shopping trolley	71	validation	213
Short Form-36	391	validity	173, 409, 463
single level	499	variability	33
sitting posture	55	vertebroplasty	125
skeletal tuberculosis	239		
smoking	117	walking speed	355
spinal cord injury	239, 419	widespread pain	167
spinal curvature	55	work setting	63
spinal stenosis	223	working hours	361
spine	71, 383, 427	World Health Organization questionnaire	507
spinous process	107	wrestling style	321
stability	545		
stabilization	299	X-ray imaging	331
