

Keyword Index Volume 8 (2015)

accreta	293	Down syndrome	77
acute suppurative parotitis	63	<i>ductus arteriosus</i>	57
adiposity	403		
adolescent	1	education	221
AKI (acute kidney injury) risk	349	ELBW (Exterme low birth weight infants)	257, 349
anaerobic	257	elliptocytosis	67
antenatal steroid	113	evidence-based NICU design	177
aplasia cutis congenita	275	extremely low birth weight	91, 363
		extremely lowbirth weight infants	113
bacteremia	227		
bilateral suppurative parotitis	63	factors	349
bilirubin	243	feeding	15
body composition	403	fetal growth restriction	269
bowel	257	fetal MRI	269
brain death	263	fetal pulmonary hyperflow	57
breastfeeding	105	fetal thrombotic vasculopathy	251
breech	421	fetal ventricular afterload	57
bronchopulmonary dysplasia	91, 113, 189	fetal ventricular hypertrophy	57
		fetal ventricular overload	57
		feto-reduction	275
caffeine	41		
caffeine citrate	339	GALD	23
cardiorespiratory events	307	Galectin-3 binding protein	99
CAT/CLAMS	233	genital injury	421
cerebral lactate	269	Gestational alloimmune liver disease	23
cesarean section	359	gestational Diabetes Mellitus	359
chloride	85	glucose	119
chorioamnionitis	99		
chronic lung disease	189	haddad syndrome	165
congenital cytomegalovirus	137	hand hygiene	221
congenital hypoventilation syndrome	165	helium-oxygen (Heliox)	323
conservative management	293	hemochromatosis	413
continuous infusion	149	hemolysis	67
cool cap	47	hemolytic disease	243
cord accidents	251	hepatitis C Virus	371
cord blood	99	High Flow Nasal Cannula (HFNC)	323
cross infection	221	Hirschsprung's disease	165
cystathionine β -synthase	77	hyperbilirubinemia	9
		hyperglycemia	125
delayed umbilical cord clamping (DCC)	393	hyperoxia	313
developmental screener	233	hypertension	363
diabetes	105		

hypoglycemia	9	neonate	133, 143, 227, 243, 263, 359, 379, 421
hypothermia	33, 119	neonatology	233
hypoxia	313	neurodevelopment	179
hypoxia inducible factor	313	newborn	33, 215, 221, 413
hypoxic ischemic encephalopathy	47, 119, 125, 263	newborn hypoglycemia	359
		newborn screening	137
imaging	413	newborn and extremely preterm infants	189
<i>in vitro</i> fertilization	275	NICU	199, 215
incidence	207	NIRS	157
infant	207, 333	nutrition	199
Infant of diabetic mothers	9		
infection control	221	obesity	363
influenza	297	obstetric outcome	1
inhaled nitric oxide	215	omphalocele	333
intermittent infusion	149	oral	15
intrauterine growth restriction	251	organ donation	263
intraventricular-periventricular hemorrhage	113	oseltamivir	297
IUGR	251	outcomes of care	177
		ovarian cyst	171
jaundice	67	Oxygen	189, 313
labial injury	421	parenteral nutrition	189
lipids	133	patent ductus arteriosus	113
lung injury	323	pelvic MRI	171
		pharmacokinetics	297
macrosomia	9, 105, 359	phototherapy	243
malignant tachypnea	85	placenta	33, 77
maternal diabetes	99	polymerase chain reaction	137
melatonin	227	postnatal body weight loss	113
mesenteric saturation	157	poverty	179
morbidity	349	PPHN	215
mortality	349	PRBC transfusion	199
multi-fetal pregnancies	275	predictive factors	41
multiple births	393	pregnancy	1, 171, 297, 371
		premature	207, 227
nasal continuous positive airway pressure	91	Premature infant	199, 339, 363
NEC	157, 257	prematurity	99, 179, 233
necrotizing enterocolitis	339	preterm	257
neonatal autopsy	23	preterm birth	137
neonatal discharge	307	preterm infant	15, 149, 393
neonatal encephalopathy	33	psychometrics	233
neonatal hemochromatosis	23	pulmonary hypertension	333
Neonatal intensive care unit discharge	307	pulmonary vasodilator	215
neonatal liver disease	23		
neonatal liver failure	23	quality improvement (QI)	393, 379
neonatal skin disorders	275		
Neonatal	119	recurrence rate	293
neonatal surgery	403	redox potential of glutathione	189
neonatal	53, 63	refractory seizures	53

respiratory distress	9	tailgut cyst	171
respiratory insufficiency	333	teenage	1
respiratory quotient	403	testicular torsion	421
rest energy expenditure	403	therapeutic hypothermia	47, 125
retinopathy of prematurity	207	thymus size	143
retrorectal cystic hamartoma	171	transfusion	157
risk-based screening	371	treatment	297
		treatment outcomes	119
sepsis	257	triglyceride concentrations	133
single-family room NICU	177	twins	413
sonography	143		
spectroscopy	269	universal screening	371
standardization of care	199		
stillbirth	251	vancomycin	149
stool	379	VEGF	313
stress	179	ventilator	333
sulfite oxidase deficiency	53	visible blood	379
