

# Keyword Index Volume 9 (2016)

abnormal placentation	133	22q11.2 deletion	223
acute kidney injury	417	Detroit	291
adipokine	73	DiGeorge syndrome	223
AGA	73	discharge process	433
airway extubation	371	disseminated intravascular coagulation	325
alarm	357	doppler velocimetry	117
allostatic load	271	ductus venosus	117
Animal-derived	7		
antenatal	393	echocardiography	261
antenatal and perinatal correlates	159	eclampsia	49
antenatal corticosteroids	15	electroencephalography	341
antenatal glucocorticoid	23	Elele Nigeria	303
anteartum hemorrhage	325	encephalopathy	179
apnea	341	endothelin 1	145
arrhythmia	427	endotracheal intubation	363
autism spectrum disorders	41	enterocolitis	195
averaging	357	epsilon globin	91
		ET-1	145
behcet disease	423	extremely-low-birth-weight infant	261
Bikaner Hospital	417	eye exam	427
Bishop Score	127		
BMI	59	fecal occult blood testing	171
body composition measurement	285	fetal echocardiography	317
breast milk	233	fetal growth	73
breastfeeding initiation	401	fetal hypoxia	279
		fetal tissues	91
caffeine	427	FOB testing	171
catheter-related blood stream infection	99		
cerclage	59	genital mycoplasma	201
cervical length	127	gestational hypertension	49
cesarean section	279	granulomatosis infantisepticum	313
chorioamnionitis	201	growth & development	285
chronic lung disease	187	growth parameters	385
circulatory management	261	guaiac testing	171
cognitive delay	41	gut microbiome	41
complications of prematurity	271		
communication	393	hair cortisol	333
congenital heart disease	317	HELLP syndrome	49
congenital high airway obstruction	223	hematocrit	279
consultation	393	high risk newborn	285
cord blood	279, 291	high risk pregnancies	401
cortisol	271	high-risk newborns	67
cranio-facial anomalies	217	histopathology	31
cyclopentolate	427	hypertension of pregnancy	31

hypertension	251	NEC	171
hypothermia	179	necrotizing enterocolitis	41,159, 171, 233
hypothermia	295	neonatal care	303
hypothyroidism	99	neonatal listeriosis	313
hypoxemia	357	neonatal morbidity	15
		neonatal pulmonary disease	227
IDMs	73	neonatal	423
immunoglobulin G	41	neonate	23, 321, 417, 427
incubator scales	377	neonatology	377, 393
induction of labor	127	newborn	7, 139, 145, 243, 251, 363, 427
infants of pre-eclamptic mothers	73	NICU	371
inhaled nitric oxide	211	nitric oxide	243
iNO	251	noninvasive	91, 211
INR	139	nucleic acid	91
INSURE	363		
intensive care	377	obesity	59
international survey	243	obstetric hemorrhage	133
intrahepatic cholestasis	411	outcome	195
intrauterine growth restriction	117	oxygen	371
intraventricular hemorrhages	67	oxygen index	251
IUGR	73, 117	oxygen saturation	357
		parental	393
KMC method	385	parenteral shortage	153
knowledge	303	partial trisomy 10q chromosome	217
Kuwait	179	pediatric cardiology	317
		PEDI-CAT	41
lactoferrin	233	perinatal outcome	411
larynx	223	Peripherally inserted double lumen central catheter	99
late preterm	15	peritoneal drainage	233
lead	291	peristence	187
LGA	73	persistent pulmonary hypertension of the	
listeria monocytogenes	313	newborn	211, 243
low birth weight	385	phosphorous	153
lung pathology	227	PIVKA-II	139
		placenta previa	279
maternal serum screening tests	411	placenta	49
maternal stress	271	placental abruption	325
maternal-fetal medicine	133	placental inflammation	201
meconium orchitis	107	pneumothorax	321
meconium peritonitis	107	post-partum hemorrhage	325
medication	7	PPHN	243
metabolic bone disease	153	practice	303
microarray	217	pregnancy	49, 411
microcephaly	217	premature infants	83, 341
middle cerebral artery	117	premature	195, 371
mRNA	31	prematurity	15, 171, 201, 285
multiple gestation	195	premedication	363
<i>Mycoplasma hominis</i>	201	prenatal	393
mydriatics	427	prenatal care	271
		prenatal diagnosis	91
naloxone	363	pressure injury	23
nasal CPAP	187		

preterm birth	333	stress response	333
preterm infant	357	suction	371
preterm	59, 153, 363, 393, 417	surfactant	321
probiotics	233	survey study	133
protein C	139	survey	7
protein S	139	synthetic	7
pulmonary interstitial glycogenosis	227		
pulmonary	251	TAPQOL	41
pulse oximetry	357	THBD	31
pyelectasis	217	thyroid stimulating hormone	349
		thyroxine	349
quality improvement	187, 433	transcatheter arterial embolization	325
Quality of life	41	transposition of the great arteries	317
		transvaginal ultrasonography	127
Raynaud phenomenon	423	trisomy 21	227
readmission	433		
renal failure	417	umbilical artery	117
renal function	145	umbilical catheters	67
renal ultrasound	83	<i>Ureaplasma urealyticum</i>	201
respiratory morbidity	15	urinary tract infection	83
respiratory therapy	371	urine culture	83
respiratory	251	uterine artery embolization (UAE)	325
retinopathy of prematurity	349		
rewarming rate	295	vascular endothelial growth factor	349
rewarming time	295	vasodilator	261
rural mothers	303	velocardiofacial syndrome	223
		ventilated infants	377
scrotoschisis	107	very low birth weight infants	99
seizure	341	very low birth weight	171, 187, 295, 357
SGA	117	visfatin	73
sildenafil	251	vitamin K deficiency	139
small-for-gestational age	117	VLBW	83
social functioning	41	voiding cystourethrography	83
spontaneous intestinal perforation	159		
Staphylococcus	99	weight measurement	377
steroid	23	weight	59
stress in pregnancy	333
