

# Keyword Index Volume 1 (2012)

15q13.3	161	epilepsy in females linked to mental retardation	179
absence seizure	59	epilepsy surgery	211
absence status epilepticus	59	epileptic encephalopathy	151
absences	129	epileptic seizures	237
antiepileptic drugs	11, 103	evoked potentials	103
attention deficit hyperactivity disorder	221	focal cortical dysplasia	195
autism	221	frontal dysfunction	77
behavior	187	frontal lobe seizures	5
benign familial neonatal seizures	143	genetic counseling	135
benign neonatal epilepsy	143	genetics	135
brain tubers	221	gliosis	195
brain volumetry	187	GLUT 1 deficiency	129
carbamazepine	65, 103	hippocampal plasticity	11
<i>CDKL5</i>	151	hippocampal sclerosis	195
childhood	103	hyperkinesia	171
children	125, 229	hypoglycorrhachia	129
chromosomal testing	5	hypouricemia	65
chronic epilepsy	195	hypouricuria	65
cognition	11, 187	idiopathic	113
cognitive delay	221	infant myoclonic epilepsy	171
copy number variation	161	infantile spasms	171, 221
cortical dysplasia	211	intracranial electroencephalography	211
cryptogenic	113	intractable seizures	243
CSWS	187	ITP	125
cyclin-dependent kinase-like 5	27	juvenile myoclonic epilepsy	77
Dandy-Walker malformation	125	<i>KCNQ</i> potassium channels	143
drug resistant epilepsy	203	ketogenic diet	129
drug-resistant epileptic encephalopathy	27	lamotrigine	103
early epilepsy RTT variant	27	medically intractable epilepsy	5
early onset epilepsy	151	<i>MEF2C</i> haploinsufficiency	171
early-onset epilepsy	129	migraine	113
EEG	43	mosaic screening	5
endoscopic third ventriculostomy	237	MRI	187
epilepsy 11, 37, 51, 69, 97, 103, 113, 117, 135, 161	195, 211, 243		
epilepsy genes	135		

myoclonic atstatic epilepsy	43	resistant epilepsy	125
myoclonic epilepsy of infancy	43	Rett syndrome	27, 151
		rufinamide	97
neocortical epilepsy	211		
neonate	143	<i>SCN1A</i>	161
neuroendoscopy	237	secondary bilateral synchronous discharge	37
neuron-specific enolase	229	seizure disorders	161
neuronal injury	229	seizures	113, 117, 125, 143
newborn infant	143	shunted hydrocephalus	117
nocturnal seizures	5	skin lesions	51
non-convulsive status epilepticus	5	SPECT	37
nonlesional epilepsy	195	status epilepticus	229
		structural genomic variations	161
occlusive hydrocephalus	237	surgical technique	237
overdose	65	syndrome	117
pancreatitis	69	temporal lobe	125
<i>PCDH19</i>	179	thalamo-cortical coupling	37
pediatric	97	thalamus	37
pediatric refractory epilepsy	203	tuberous sclerosis	221
perioral myoclonia	59	tuberous sclerosis complex	51
pharmacotherapy	203		
phenotype-genotype	27	valproate	103
prefrontal lobe	187	valproic acid	69
purine	65	Vineland scale	43
reflex epilepsy	87		
reflex seizure	87
