

Keyword Index Volume 9 (2014)

acute lymphoblastic leukemia	101	disseminated	109
acute respiratory tract infection	167	Down syndrome	101
ADEM	37		
amoxicillin	1	ecthyma gangrenosum	197
amoxicillin/clavulanate	1	ELISA	163
AMR surveillance	127	enterococcal infections	43
antibiotic	1, 157	<i>Enterococcus faecalis</i>	43
antibiotic resistance	139, 147	<i>Escherichia coli</i>	157
antibiotic use	139	Europe	135
antimicrobial prescribing	135		
antimicrobial resistance	135, 151	ferritin	177
Asia	53	fever of unknown origin (FUO)	19
awareness	127	flaccid quadriplegia	27
bacteremia	115	Gaza	11
Bell's palsy	27	general hospital	147
BK virus	183		
bloodstream infection	85	hemorrhagic cystitis	183
brain abscess	115	hepatobiliary dysfunction	101
		HIV	71, 119
CAESAR	127		
Calabar	163	IgM	163
causative agents	11	immunocompromised	109
cavitary lesion	109	infection	71
cefaclor	1	infection prevention and control (IPC)	127
central venous catheter	85	infection season	67
chigger	93	infectious mononucleosis	193
chikungunya	37	innovation	127
childhood	43	iron sequestration	177
children	1, 19, 47, 93, 139, 163, 167		
clinical presentation	171	kindergarten	11
<i>Clostridium perfringens</i>	31		
Coccidioides immitis	109	low-dose cidofovir	183
Coccidioidomycosis	109		
co-infection	197	Malaria	171
community gastroenteritis	11	meningoencephalitis	93
<i>Cryptococcus neoformans</i>	101	methyl prednisolone	27, 37
cschar	93	miliary	109
		molecular epidemiology	53
dengue	27, 197	myositis	27
disclosure	71		

national coordination of AMR	127	rational use of antibiotics	127
necrotizing pneumonia	23	reactive arthritis	189
Nigeria	163	regional variations	139
non-transplant	183	rubella	163
one health	127	scrub typhus	93
osteomyelitis	67	septic arthritis	67
outpatients	139	seropositive	163
paediatrics	135	serum iron	177
<i>Pasteurella</i>	115	sinusitis	115
pediatric	31, 101	skull	119
pediatric antibiotics	1	Slovenia	139
pediatric infections	177	Sri Lanka	167
perianal dermatitis	43	<i>Staphylococcus aureus</i>	85
perianal rash	43	<i>Streptococcus constellatus</i>	47
perinatal	71	<i>Streptococcus pneumoniae</i>	23
Plasmablastic lymphoma	119	<i>Streptococcus</i>	115
<i>Plasmodium falciparum</i>	171	subdural empyema	47
<i>Plasmodium vivax</i>	171	susceptibility	157
pneumothorax	23	systemic infection	31
point prevalence survey	147, 151	thrombocytopenia	193
Poncet's disease	189	tuberculosis	109
prevention	85	tuberculous peritonitis	189
prophylaxis	151	viral etiology	167
<i>Pseudomonas aeruginosa</i> septicemia	197	viral gastroenteritis	53
pyogenic arthritis	67		
rash	93
