

# Keyword Index Volume 1 (2012)

Accident prevention	31	energy expenditure	77
airway	71	epinephrine	221
animal models	49	extracorporeal membrane oxygenation	207
Anomalous coronary artery	115	extubation	193
antidiuretic hormone	143	failure predictive factors	193
apnea	95	fetal distress	161
arginine vasopressin	143	fluid management	143
arrhythmia	121	hemodynamic	153
atrial natriuretic peptide	143	hemorrhage	153
bacterial infections	17	Hospital bed capacity/statistics & numerical data	25
birth asphyxia	161	Humans	25
blindness	169	hyponatremia	169
brain natriuretic peptide	143	immunologic response	127
bronchiolitis	95, 143, 193	infant mortality	135
caffeine	95	Infant	25
Cardiac anatomy	207	infections	135
cardiac surgery	37	intensive care unit	143, 201
cardiopulmonary bypass	37	Intensive care units	25
chemical pneumonitis	165	interface	193
child deaths	135	macrophage activation syndrome	211
child	5, 169	mechanical ventilation	5, 61, 95
children	37, 99, 105, 193	meconium aspiration	49
clonidine	5	meconium staining	161
compliance	61	methadone	105
congenital heart disease	37, 121, 207	milrinone	221
cord blood gases	161	mobilization	183
coronary sinus	115	monitoring	61
critical care	95	multiple system organ failure	77
critical illness	5	myocardial ischemia	221
dengue hemorrhagic fever	153	neonatal assessment	161
dopamine	221	Neonatal mastitis	43
drowning	31	neonatal sepsis	17
drug toxicity	221	Neonatal/manpower/*statistics & numerical data	25
echocardiography	153	neonate	165
electroencephalography	37	neonates	61
embolus	217	neurological sequelae	37
endotracheal tube leakage	61		

neurosurgery	169	respiratory distress	143, 161
Newborn	25	respiratory failure	173
newborns	49	respiratory syncytial virus	95, 127
nitrogen balance	77	rheumatic disease	211
Non-invasive ventilation	193		
nursing care	87	sedation	5
		sepsis scores	135
octreotide	99	septal defect	207
opioid withdrawal	105	shock	153
over the counter products design	165	slide tracheoplasty	173
		sodium	169
pacemaker	121	stridor	173
pain measurement	87	stroke	217
pathologic anatomy	207	substrate utilization	77
pediatric	71, 143	sudden cardiac death	115
pediatrics	153, 201	surfactant	49
Pediatric age group	31	Swimming	31
pediatric critical care	183	Swimming pools	31
pediatric risk of mortality score	77	systematic review	5
perinatal asphyxia	161	systemic inflammatory response	
Personnel staffing and scheduling/statistics & numerical data	25	syndrome	17
physical therapy	183	Systemic onset juvenile idiopathic arthritis	211
PICU	99		
pneumomediastinum	165	toxicity	165
preterm and term newborns	17	tracheostomy	201
Prevention of drowning	31		
primary health	135	ultrasonography	43
Projectile	217	unintended use	165
pulmonary artery sling	173	upper gastrointestinal bleeding	99
pulmonary edema	221		
		vascular tone and reactivity	121
quality of health care	87	video laryngoscope	71
		vision disorders	169
rehabilitation	183		
resistance	61	Workload/statistics & numerical data	25
