

Keyword Index Volume 2 (2013)

acetylcholinesterase	137	hepatic trauma	127
acute hypoxemic respiratory failure	111	history	147
acute respiratory distress syndrome	19, 111	hydrocephalus	89
acutely ill children	95	hypertriglyceridemia	77
age	177		
anti-N-methyl-D-aspartate receptor	143	in hospital	55
antiepileptic drugs	85	inotropic therapy	95
antipsychotic	169	intensive care	169
antipsychotics	49	intensive care unit	111
arteriovenous malformations	181	intermediate syndrome	137
artificial	27, 33		
artificial respiration	39	levosimendan	95
autoimmune diabetes	77	low cardiac output syndrome	95
		lung injury	19
bladder	177	lymphoblastic lymphoma	71
body weight	177		
bowel regimen	63	malathion	137
broken heart syndrome	187	management	169
bromides	85	mechanical circulatory support	95
bronchial casts	131	mechanical ventilation	5, 11, 19
		mediastinal cancer	71
cardiac surgery	95	mid-frequency ventilation	19
cardiac tamponade	71	monitoring	27, 33, 39
cardiopulmonary resuscitation	55	mortality	105
cerebrospinal fluid shunting	89	myocardial stunning	187
child	111, 177		
children	63	neonate	81
cholinergic crisis	137	neurogenic pulmonary edema	89
congenital heart disease	131	neurogenic stunned myocardium	89
constipation	63	neuroleptics	49
cost efficiency	95	neurological dysfunction	105
critical care	27, 33, 39, 121, 147	nitric oxide	181
critical pediatric patients	105	non-invasive ventilation	111
critically ill	63		
		olanzapine	49
delirium	5, 49, 121, 169	organophosphate induced delayed neuropathy	137
dexmedetomidine	143	organophosphorus poisoning	137
diabetic ketoacidosis	77		
		pancreatitis	77
echocardiography	81	pediatric	27, 33, 39, 169
encephalitis	143	pediatric critical care	147

pediatric intensive care	49	seizures	143
pediatric intensive care unit	85	side effects	85
pediatric neurosurgery	89	sleep	5
pediatrics	71, 121, 147	stress cardiomyopathy	187
pericardial effusion	71		
pericardiocentesis	71	Takotsubo cardiomyopathy	187
perihaptic packing	127	thrombolytic therapy	127
phosphodiesterase-5 inhibitors	181	tissue plasminogen activator	127
PICU	105	transient left apical ballooning	187
plastic bronchitis	131	treatment	121
pneumonia	111	triggering	11
poliomyelitis	147	truncal valve replacement	131
pressure control	19	truncus arteriosus	131
pulmonary embolism	127	type 1 diabetes mellitus	77
quetiapine	121	urinary catheter	177
		Utstein guidelines	55
refractory status epilepticus	85		
respiration	27, 33	vein of Galen arterio-venous malformation	81
		venous thromboembolism	127
sedation	5	ventilation	27, 33, 39, 147
seizure control	85
