

Keyword Index Volume 10 (2012)

acyclovir	301	congenital cataract	167
Addison's disease	309	congenital muscular dystrophy	63
ADHD	101	consanguinity	193
adolescence	29	conversion disorder	293
alpha coma	137	cranium	133
amenorrhea	41	culture	15
anterior fontanel	133	cyclosporine	313
antiepileptic drug	275	cytochrome B	35
anxiety	211		
apnea	53	default mode network	87
array-comparative genomic hybridization	283	depression	211
asphyxia	7	developing country	23
ataxia	167	diffusion tensor imaging	205
attitude	111	diphtheria	143
autism	15, 35, 87	disseminated intravascular coagulation	125
azathioprine	211		
		EEG	137
BAEP	137	elevated creatine kinase	309
beliefs	15	encephalomyopathy	235
birth weight	193	ependymoma	41
BMT	313	epidemic brain attack	257
botulinum toxin type-A (Botox)	155	epilepsy	23, 105, 111, 275
burden	29	epileptic encephalopathy	283
		epileptiform abnormalities	101
cardiac surgery	57	executive function	87
carnitine	275		
carotid aneurysm	297	family	117
cerebral malaria	225	febrile convulsion	187
cerebral palsy	117	flow velocities	7
cerebral salt-wasting syndrome	221	folate	193
Chandipura encephalitis	257	fontanel delayed closure	133
child	151, 161	fukutin gene	63
childhood	23	Fukuyama muscular dystrophy	63
children	49, 57, 95, 101, 117, 187, 275		
chorea	57	galactosialidosis	45
cognizance	29	genotype and phenotype correlation	269
collagen VI	173	gestational age	193
collateral circulation	297	girls	29
complex III	35	Glasgow coma scale	181
computed tomography	289	Guillain-Barré syndrome	289
congenital bilateral perisylvian syndrome	205		

haplotype relative risk	1	muscular hypotonia	167
health policy	257	myopathy	309
hemicrania continua	155		
hemihypoplasia	199	neonate	7, 125
hippocampal sclerosis	45	neural tube defects	193
HSV encephalitis	301	neurodegenerative disorder	67
hydrocephalus	41	neuromuscular disorders	95
hyperpigmentation	129	neuronal apoptosis inhibitory protein gene	269
hypersomnia	161	neuropathy	143
hyponatremia	221	Nigeria	105
hypopnea	53	Nigerian	187
hypothalamic hypogonadism	41	Nigerian teachers	111
hypoxic-ischemic encephalopathy	67	non-epileptic	101
immunization	143	obsessive-compulsive	211
incidence	193	oculomotor nerve	49
incidence rate	257	ossification	133
infantile spasms	283	outcome	7
infants	301	oxidative phosphorylation	235
international classification of functioning disability and health	247	palsy	49
isolated sulfite oxidase deficiency	67	parkinsonism	225
		paroxysmal hemicrania continua	155
Kleine-Levin syndrome	161	phakomatosis	199
		pharyngeal-cervical-brachial	289
L-2-hydroxyglutaric aciduria	215	placental abruption	125
lactose intolerance	151	prediction	7
left abducens nerve palsy	297	prednisone	211
leukemia	147	PRES	313
linear nevus sebaceous syndrome	199	prevalence	23, 29
logistic regression	181	primary care	257
		prognosis	137
macrocephaly	147	prognostic indicators	181
magnetic resonance angiography	289	psychogenic	293
magnetic resonance imaging	289	psychosocial impact	117
magnetic resonance spectroscopy	215		
Marinesco-Sjögren syndrome	167	qualitative	15
MCP-1	1		
Medically unexplained neurological symptoms	247	regression	35
mental retardation	167	renal failure	45
middle cerebral artery	7	retinal hamartomas	75
migraine	29	rural health services	257
missense mutation	63		
mitochondrial disorder	235	Saudi Arabia	15
mitochondrial DNA mutation	35	seizure	53, 151
mitochondrial dysfunction	35	skin biopsy	173
movement disorder	293	skull	133
MRI	75, 205	sleep	161
multidisciplinary team	247	South-Eastern Norway	95
muscle biopsy	173	sphenoid sinusitis	297
muscular dystrophy	173	spinal muscular atrophy	269

SSPE	221	transmission disequilibrium test	1
stigma	105	transplantation	45
stroke	257	traumatic brain injury	137
STXBP1	283	tuberculous meningitis	181
subacute combined degeneration of cord	129	tuberous sclerosis	75
subgaleal hematoma	125		
substantia nigra	225	Ullrich disease	173
subtelomere-screening	167		
survival motor neuron gene	269	vagal nerve stimulator	53
		vitamin B12	129, 193
tension type headache	155		
tertiary care	257	working memory	87
thalamus	301		
tic disorder	293	zinc	187
tourette syndrome	1
