

Keyword Index Volume 12 (2014)

3-D MRI	75	DPAGT1	83
absence	1, 207	duchenne	203
acetylcholine receptor deficiency	83	EEG	117
acute demyelinating neurological disorder	49	efficacy	1
acute disseminated encephalomyelitis	49	electroencephalogram	207
acute necrotizing encephalopathy	95	encephalitis	217
acute transverse myelitis	141, 145	encephalopathy	161
ADHD	75	epilepsy	117, 127, 207
amino acids profile	171	epilepsy syndromes	1
autism	151, 171	epileptic spasm	63
autistic disorder	29	Epstein-Barr Virus	217
autologous	151	excessive daytime sleepiness	127
balance	15	fasciotomy	203
basal ganglia	183	febrile respiratory illness	95
behavior	75	flour fortification	69
bone marrow	151	FMR1	29
brain asymmetry	75	focal febrile status epilepticus	109
brain imaging	95	folic acid	69
brain volumetry	75	fragile X syndrome	29
breath holding spells	137	frontal lobe	75
cerebellar ataxia	221	genotype	83
cerebral palsy	15, 127	Glasgow coma scale	35
cervical lymphadenopathy	221	glucose-1-transporter deficiency	59
child	91, 137, 141, 145, 213	glutamate	171
childhood	35, 95	glutamine	171
CHRNE	83	Guillain-Barré syndrome	91
ciliopathy	157	hemophagocytosis	221
clinically isolated syndrome	49	hepatosplenomegaly	167
coma	35	HHE syndrome	109
compartment	203	hiccups	49
congenital myasthenic syndrome	83	hypoglycorrachia	59
convulsions	195	idiopathic intracranial hypertension	55
cranial ultrasound	183	ill newborns	195
delayed diagnosis	105	infant	45
delta activity	207	infantile spasms	105
developmental delay	59, 109	insomnia	127
down syndrome	105		

intracranial infections	35	prevalence	137
Iran	69	pseudotumor cerebri	55
		pulmonary tuberculosis	91
lamellar ichthyosis	101	RAPSN	83
lenticulostriate vasculopathy	183	refractory epilepsy	1
levetiracetam	1	rhabdomyoma	45
		rickets	101
malformations of cortical development	117	risk factors	195
measles vaccine	55		
microcephaly	167	safety	1
mononuclear cells	151	seizures	59
mosque sign	45	Simpson-Golabi-Behmel syndrome	157
motor function	15	sleep disordered breathing	127
muscular dystrophy	203	slow channel syndrome	83
<i>Mycoplasma pneumoniae</i>	141, 145	spastic diplegia	15
myocardial ischemia	45	ST segment elevation	45
myoclonic	1	status epilepticus	217
myopathy	101	stem cell therapy	151
		stem cells	151
neural tube defects	69	stereotypies	29
neuromuscular junction	83	strength training	15
neuronal nicotinic acetylcholine receptor antibody	161		
non-traumatic coma	35	thalamus	183
		treatment	141
occipital rhythmic	207	tuberous sclerosis	45
OFD1	157		
		vanishing white matter disease	167
paraneoplastic neurological disorder	161	ventriculoatrial shunt	213
pediatrics	1	vitamin B12 deficiency	63
perforation of tricuspid valve	213		
pharmacokinetics	1	whole cell DPT vaccine	167
phenotype	83		
plasmapheresis	161	X-linked Joubert syndrome	157
predictors	195		
prefrontal lobe	75
