

## Editorial

---

With this issue of Journal of Vestibular Research, the Editorial Board will be enhanced by the appointment of its newest member, Dr. Sergio Carmona, a neurologist with a background and special interest in vestibular function. Dr. Carmona augments the international representation on the Editorial Board of JVR as he lives and works in Argentina.

I wish to thank each and every member of the Editorial Board of JVR for their work maintaining and improving the quality of the Journal. Editorial Board members regularly are asked to assist with the peer review process and to advocate for the Journal. Their efforts are very much appreciated.

And finally, I wish to thank all those members of the vestibular research community who have volunteered their time to review manuscripts submitted to JVR. Their efforts enable JVR to continue as a peer-reviewed forum devoted exclusively to vestibular research.

Joseph M. Furman
