

Keyword Index Volume 24 (2014)

[¹⁸ F]FP	403	head impulse test	351, 397, 459
adaptation	297	head movements	433
artificial gravity	1	head rotation	329
ascending tract of Deiters	375	head translation	329
astasia	375	height vertigo	433
		histamine	281
balance	297	idiotropic vector	267
bilateral vestibular failure	403	infarction	443
BPPV	343	interhemispheric	453
brachium conjunctivum	375	internal model of gravity	267
brain stimulation	453	ipsicanal switch	415
		ipsilateral vestibulothalamic tract	375
caloric test	313		
canalolithiasis	415	limitation of activity	33
cerebellar ataxia	465	lorazepam	39
cervical vestibular evoked myogenic potential	25, 365		
cervico-colic reflex (COR)	425	Machado-Joseph disease	351
clinical trial	39	maculo-canal dissociation	335
cochlear	313	magnetic search coil	351
comorbidity	387	Mal de débarquement	17
crossed ventral tegmental tract	375	medial longitudinal fascicle	375
cupulolithiasis	415	Ménière's disease	335
		motion parallax	329
diagnostic criteria	387	motion perception	17
diamine oxidase	281	motion sickness	17
dizziness occupational therapy	33		
dopamine D _{2/3} -receptors	403	nausea	39
dynamic visual acuity	289	neglect	375
		neuronopathy	465
efference copy	425		
epidemiology	387	ocular vestibular-evoked myogenic potential	365
ethanol	289, 297	oculomotor	305
eye movements	357, 433	otolith	357, 365
eye-head coordination	425	otolith function test	9
		otolithic function	335
functional vestibular testing	459	otoliths	1
ganglionopathy	465	PET	403
German Navy	281	physical therapy	33
		positional nystagmus	343

postural control	297	tumor	443
prevention	17	type 2 BPPV	415
promethazine	39		
proprioception	425	unilateral centrifugation	9
pseudo-spontaneous nystagmus	343	utricle	365
pursuit	453		
pusher	375	validation	387
		VEMP	313
quality of life	33	vertigo	33, 39, 443
questionnaires	17	vestibular	289, 313, 351, 357, 365, 375, 453
		vestibular disorders	443
representational gravity	267	vestibular migraine	387
representational momentum	267	vestibular neuritis	343, 459
representational trajectory	267	vestibular organs	17
rise/fall time	25	vestibular rehabilitation	397
		vestibular-autonomic reflex	1
Saccade	289	vestibulo-ocular reflex (VOR)	289, 329, 425
seasickness	281	vestibulopathy	305, 465
self care	33	video head impulse test	289
semicircular canal function	459	vision	297
spatial perception	267	visual exploration	433
spontaneous nystagmus	343	visual height intolerance	433
sternocleidomastoid muscle	25	visual vertigo	305
subjective vertical	1, 9	visual-vestibular interaction	357
subjective visual vertical	335	vitamin C	281
SVV	335	VOR	453
		VOR gain	397
thalamus	375		
translation	357	Wernicke encephalopathy	443
