

Subject index

Volume 10 (1998)

Apraxia; Developmental dyspraxia; Motor learning; Stroke; Learning disabilities **10, 75**

Botulinum-A toxin; Neurogenic bladder; Detrusor–sphincter dyssynergia; Self-catheterization; Electrical stimulation **10, 267**

Brain; Injury; Online; Internet; World wide web; Newsgroups **10, 67**

C3-C4 propriospinal system; Forelimb movements; Motor behaviour; X-ray cinematography; Spinal cord lesions; Movement kinematics **10, 91**

Case Management; Traumatic brain injury; Community Case Management; Hispanic **10, 51**

Cat; Muscle afferents; Skin afferents; Reflex control of locomotion; Central pattern generator (CPG) **10, 107**

Central nervous system injury; Cerebral sensorimotor systems; Positron emission tomography; Perfusion; Metabolism **10, 143**

Central pattern generator (CPG); Cat; Muscle afferents; Skin afferents; Reflex control of locomotion **10, 107**

Cerebral palsy; Development; Spasticity; Co-activation; Locomotion; Plasticity; Physiotherapy **10, 257**

Cerebral sensorimotor systems; Central nervous system injury; Positron emission tomography; Perfusion; Metabolism **10, 143**

Clinical examination; Spinal cord injury; Electrophysiological recordings; Functional outcome **10, 191**

Co-activation; Development; Cerebral palsy; Spasticity; Locomotion; Plasticity; Physiotherapy **10, 257**

Community Case Management; Traumatic brain injury; Case Management; Hispanic **10, 51**

Community re-integration; Impaired awareness; Traumatic brain injury; Rehabilitation; Treatment **10, 25**

Community-based training; Traumatic brain injury; Vocational rehabilitation; Work adjustment training; Supported employment **10, 39**

Corticospinal tract; Stroke; Hemiplegia; Plasticity; Rehabilitation; Transcranial magnetic stimulation; Positron emission tomography **10, 131**

Detrusor–sphincter dyssynergia; Neurogenic bladder; Self-catheterization; Electrical stimulation; Botulinum-A toxin **10, 267**

Development; Cerebral palsy; Spasticity; Co-activation; Locomotion; Plasticity; Physiotherapy **10, 257**

Developmental dyspraxia; Apraxia; Motor learning; Stroke; Learning disabilities **10, 75**

EMG control; Rehabilitation; Functional electrical stimulation (FES); Grasping; Tetraplegia **10, 251**

Electrical stimulation; Neurogenic bladder; Detrusor–sphincter dyssynergia; Self-catheterization; Botulinum-A toxin **10, 267**

Electrophysiological recordings; Spinal cord injury; Clinical examination; Functional outcome **10, 191**

Forelimb movements; C3-C4 propriospinal system; Motor behaviour; X-ray cinematography; Spinal cord lesions; Movement kinematics **10, 91**

- Functional therapy;** Swallowing disorders; Neurogenic dysphagia; Neurorehabilitation **10**, 169
- Functional electrical stimulation (FES);** Rehabilitation; EMG control; Grasping; Tetraplegia **10**, 251
- Functional electrical stimulation;** Neural prostheses; Spinal cord injuries; Standing; Locomotion **10**, 205
- Functional outcome;** Spinal cord injury; Clinical examination; Electrophysiological recordings **10**, 191
- Gain;** Soleus stretch reflex; Threshold; Walking; Stroke; Spasticity **10**, 151
- Grasping;** Rehabilitation; Functional electrical stimulation (FES); EMG control; Tetraplegia **10**, 251
- Gun shot wound;** Superior sagittal sinus thrombosis; Penetrating head injury; **10**, 61
- Hemiplegia;** Stroke; Plasticity; Rehabilitation; Corticospinal tract; Transcranial magnetic stimulation; Positron emission tomography **10**, 131
- Hispanic;** Traumatic brain injury; Community Case Management; Case Management; **10**, 51
- Impaired awareness;** Traumatic brain injury; Rehabilitation; Treatment; Community re-integration **10**, 25
- Injury;** Brain; Online; Internet; World wide web; Newsgroups **10**, 67
- Internet;** Brain; Injury; Online; World wide web; Newsgroups **10**, 67
- Learning disabilities;** Apraxia; Developmental dyspraxia; Motor learning; Stroke **10**, 75
- Locomotion;** Development; Cerebral palsy; Spasticity; Co-activation; Plasticity; Physiotherapy **10**, 257
- Locomotion;** Functional electrical stimulation; Neural prostheses; Spinal cord injuries; Standing **10**, 205
- Metabolism;** Central nervous system injury; Cerebral sensorimotor systems; Positron emission tomography; Perfusion **10**, 143
- Motor behaviour;** C3-C4 propriospinal system; Forelimb movements; X-ray cinematography; Spinal cord lesions; Movement kinematics **10**, 91
- Motor learning;** Apraxia; Developmental dyspraxia; Stroke; Learning disabilities **10**, 75
- Movement kinematics;** C3-C4 propriospinal system; Forelimb movements; Motor behaviour; X-ray cinematography; Spinal cord lesions **10**, 91
- Muscle afferents;** Cat; Skin afferents; Reflex control of locomotion; Central pattern generator (CPG) **10**, 107
- Neural prostheses;** Functional electrical stimulation; Spinal cord injuries; Standing; Locomotion **10**, 205
- Neurogenic bladder;** Detrusor-sphincter dyssynergia; Self-catheterization; Electrical stimulation; Botulinum-A toxin **10**, 267
- Neurogenic dysphagia;** Swallowing disorders; Functional therapy; Neurorehabilitation **10**, 169
- Neurorehabilitation;** Swallowing disorders; Neurogenic dysphagia; Functional therapy **10**, 169
- Newsgroups;** Brain; Injury; Online; Internet; World wide web **10**, 67
- Online;** Brain; Injury; Internet; World wide web; Newsgroups **10**, 67
- Outcome;** Premorbid history; Traumatic brain injury; Prediction **10**, 3
- Penetrating head injury;** Superior sagittal sinus thrombosis; Gun shot wound **10**, 61
- Perfusion;** Central nervous system injury; Cerebral sensorimotor systems; Positron emission tomography; Metabolism **10**, 143
- Physiotherapy;** Development; Cerebral palsy; Spasticity; Co-activation; Locomotion; Plasticity **10**, 257
- Plasticity;** Development; Cerebral palsy; Spasticity; Co-activation; Locomotion; Physiotherapy **10**, 257
- Plasticity;** Stroke; Hemiplegia; Rehabilitation; Corticospinal tract; Transcranial magnetic stimulation; Positron emission tomography **10**, 131
- Positron emission tomography;** Central nervous system injury; Cerebral sensorimotor systems; Perfusion; Metabolism **10**, 143

- Positron emission tomography;** Stroke; Hemiplegia; Plasticity; Rehabilitation; Corticospinal tract; Transcranial magnetic stimulation **10, 131**
- Prediction;** Premorbid history; Traumatic brain injury; Outcome **10, 3**
- Premorbid history;** Traumatic brain injury; Outcome; Prediction **10, 3**
- Reflex control of locomotion;** Cat; Muscle afferents; Skin afferents; Central pattern generator (CPG) **10, 107**
- Regeneration;** Spinal cord injury **10, 119**
- Rehabilitation;** Functional electrical stimulation (FES); EMG control; Grasping; Tetraplegia **10, 251**
- Rehabilitation;** Impaired awareness; Traumatic brain injury; Treatment; Community re-integration **10, 25**
- Rehabilitation;** Stroke; Hemiplegia; Plasticity; Corticospinal tract; Transcranial magnetic stimulation; Positron emission tomography **10, 131**
- Self-catheterization;** Neurogenic bladder; Detrusor-sphincter dyssynergia; Electrical stimulation; Botulinum-A toxin **10, 267**
- Skin afferents;** Cat; Muscle afferents; Reflex control of locomotion; Central pattern generator (CPG) **10, 107**
- Soleus stretch reflex;** Gain; Threshold; Walking; Stroke; Spasticity **10, 151**
- Spasticity;** Development; Cerebral palsy; Co-activation; Locomotion; Plasticity; Physiotherapy **10, 257**
- Spasticity;** Soleus stretch reflex; Gain; Threshold; Walking; Stroke **10, 151**
- Spinal cord injuries;** Functional electrical stimulation; Neural prostheses; Standing; Locomotion **10, 205**
- Spinal cord injury;** Clinical examination; Electrophysiological recordings; Functional outcome **10, 191**
- Spinal cord injury;** Regeneration **10, 119**
- Spinal cord lesions;** C3-C4 propriospinal system; Forelimb movements; Motor behaviour; X-ray cinematography; Movement kinematics **10, 91**
- Standing;** Functional electrical stimulation; Neural prostheses; Spinal cord injuries; Locomotion **10, 205**
- Stroke;** Apraxia; Developmental dyspraxia; Motor learning; Learning disabilities **10, 75**
- Stroke;** Hemiplegia; Plasticity; Rehabilitation; Corticospinal tract; Transcranial magnetic stimulation; Positron emission tomography **10, 131**
- Stroke;** Soleus stretch reflex; Gain; Threshold; Walking; Spasticity **10, 151**
- Subacute rehabilitation;** Traumatic brain injury **10, 13**
- Superior sagittal sinus thrombosis;** Penetrating head injury; Gun shot wound **10, 61**
- Supported employment;** Traumatic brain injury; Vocational rehabilitation; Work adjustment training; Community-based training **10, 39**
- Swallowing disorders;** Neurogenic dysphagia; Functional therapy; Neurorehabilitation **10, 169**
- Tetraplegia;** Rehabilitation; Functional electrical stimulation (FES); EMG control; Grasping **10, 251**
- Threshold;** Soleus stretch reflex; Gain; Walking; Stroke; Spasticity **10, 151**
- Transcranial magnetic stimulation;** Stroke; Hemiplegia; Plasticity; Rehabilitation; Corticospinal tract; Positron emission tomography **10, 131**
- Traumatic brain injury;** Community Case Management; Case Management; Hispanic **10, 51**
- Traumatic brain injury;** Impaired awareness; Rehabilitation; Treatment; Community re-integration **10, 25**
- Traumatic brain injury;** Premorbid history; Outcome; Prediction **10, 3**
- Traumatic brain injury;** Subacute rehabilitation **10, 13**
- Traumatic brain injury;** Vocational rehabilitation; Work adjustment training; Supported employment; Community-based training **10, 39**
- Treatment;** Impaired awareness; Traumatic brain injury; Rehabilitation; Community re-integration **10, 25**
- Vocational rehabilitation;** Traumatic brain injury; Work adjustment training; Supported employment; Community-based training **10, 39**

Walking; Soleus stretch reflex; Gain; Threshold; Stroke; Spasticity **10**, 151

Work adjustment training; Traumatic brain injury; Vocational rehabilitation; Supported employment; Community-based training **10**, 39

World wide web; Brain; Injury; Online; Internet; Newsgroups **10**, 67

X-ray cinematography; C3-C4 propriospinal system; Forelimb movements; Motor behaviour; Spinal cord lesions; Movement kinematics **10**, 91
