

CONSULT COLUMN

Within the next three months *NeuroRehabilitation* will begin publication of a regular section called the "Consult Column." We ask that readers submit focused clinical cases or problems no more than 500 words in length. One or more members of the Editorial Board or another assigned expert will provide a response. Readers will be credited for their submissions.

This new feature will allow readers to gain additional insight into current diagnostic and treatment procedures. Please send your "Consult Column" submission to the Journal Editors (Nathan Zasler, MD/ Jeffrey Kreutzer, PhD), Medical College of Virginia, Box 677, MCV Station, Richmond, VA 23298-0677.
