

## Keyword Index Volume 12 (2015)

age	49	maritime	141
anthropometry	61	maximum reach envelope	179
		mechanical hazards	61
computer input device	33	muscular strain	19, 33
deep vein thrombosis	131	nursing	151
electrical hazards	61	patient care	151
electromyographic activity	3	patient handling	151
electromyography	19, 33, 151	physical strength	49
EMG	165	physiological responses	3, 19
		prevention	131
fire-fighting	19	product testing	61
force variability	165	prolonged sitting	131
gender	49	safety	61
		seated reach	179
hand preference	49	shoulder	179
hand-arm-shoulder system	19, 33	slide sheet	151
hand-held load	179	subjective assessment	3, 19, 33
hand-held tools	3		
human factors	141	test finger	61
		the human element	141
injury	151		
		user involvement	141
keyboard	165		
		venous haemodynamics	131
lumbar spine	151	venous stasis	131
