

## Reviewers for volumes 11–14

---

Alhussein Abouzeid, Rensselaer Polytechnic Institute, Troy, NY, USA

Sibel Adali, Rensselaer Polytechnic Institute, Troy, NY, USA

Pieter Adriaans, Universiteit van Amsterdam, The Netherlands

Kento Aida, Tokyo Inst of Technology, Japan

Ed Akin, Rice University, Houston, TX, USA

Mark Baker, University of Portsmouth, UK

Ioana Banicescu, Mississippi State University, USA

Jorge Barbosa, Faculdade de Engenharia do Porto, Portugal

Olivier Beaumont, LABRI, France

A. Belloum, University of Amsterdam, Amsterdam, The Netherlands

Sigfried Benker, University of Vienna, Vienna, Austria

Rob Bisseling, Utrecht University, The Netherlands

Jon Blower, University of Reading, UK

Y.M. Bo, South Eastern University, Nanjing, China

Cristina Boeres, Universidade Federal Fluminense, Brasil

Luc Bouge, ENS-Cachan Bretagne, France

Bouchra Bouqata, General Electric Research and Development Center, Schenectady, NY, USA

Joel Branch, Rensselaer Polytechnic Institute, Troy, NY, USA

Ivona Brandic, Institute of Scientific Computing, University of Vienna, Austria

Marian Bubak, University of Science and Technology, Krakow, Poland

Sabin Buraga, “Al.I.Cuza” University, Iasi, Romania

Rajkumar Buyya, University of Melbourne, Vic., Australia

J.W. Cao, Chinese Academy of Sciences, Beijing, China

Thomas Caraco, University of Albany, State University of New York, NY, USA

Christopher Carothers, Rensselaer Polytechnic Institute, Troy, NY, USA

Brian Carpenter, Indiana University, Bloomington, USA

Ralph Castain, Colorado State University, Fort Collins, CO, USA

Barbara Chapman, University of Houston, TX, USA

Arun Chauhan, Indiana University, Bloomington, IN, USA

Ann Chervenak, USC Information Sciences Institute, Los Angeles, CA, USA

X.-B. Chi, Chinese Academy of Sciences, Beijing, China

Y.K. Choi, City University of Hong Kong, China

P. Chow, Fujitsu Lab of Europe Limited, London, UK

Brian Clayton, University College, Cork, Ireland

Maurice Clint, Queen’s University, Belfast, UK

Brian Coghlan, Trinity College, Dublin, Ireland

John Conery, University of Oregon, Eugene, OR, USA

Ramon Crehuet, Institut de Biologie Structurale, France

Julian Cummings, California Institute of Technology, Pasadena, CA, USA

Kei Davis, Los Alamos National Laboratory, NM, USA

Viktor Decyk, University of California, Los Angeles, CA, USA

Ewa Deelman, USC Information Sciences Institute, Los Angeles, CA, USA

Travis Desell, Rensselaer Polytechnic Institute, Troy, NY, USA

Frédéric Desprez, Ecole Normale Supérieure de Lyon, France

Karen Devine, Sandia National Laboratories, Albuquerque, NM, USA

Roxana E. Diaconescu, California Institute of Technology, Pasadena, CA, USA

James Doherty, University College, Cork, Ireland

Jim Doherty, OptimaNumerics, UK

Jack Dongarra, University of Tennessee, Knoxville, TN, USA

Petros Drinea, Rensselaer Polytechnic Institute, Troy, NY, USA

Kaoutar El Maghraoui, Rensselaer Polytechnic Institute, Troy, NY, USA

Hesham El-Rewini, Southern Methodist University, Dallas, TX, USA

Therese Enright, University College, Cork, Ireland  
Martin Erwig, Oregon State University, Corvallis, OR, USA

John Field, IBM T.J. Watson Research Center, Hawthorne, NY, USA

Bertil Folliot, University Paris 6, France

J. Fong, City University of Hong Kong, China

Wilfried Gansterer, Vienna University, Vienna, Austria

Ronald Garcia, Indiana University, Bloomington, IN, USA

Jean-Luc Gaudiot, University of California, Irvine, CA, USA

Robert A. van de Geijn, The University of Texas at Austin, TX, USA

Domingo Gimenez, University of Murcia, Spain

Alfredo Goldman, University of Sao Paulo, Brazil

Peter Gottschling, Indiana University Bloomington, IN, USA

George Gravvanis, Hellenic Open University, Greece

Dan Grigoras, University College, Cork, Ireland

Tomasz Gubala, AGH, Krakow, Poland

Q.P. Guo, Wuhan University of Technology, China

M.Y. Guo, The University of Aizu, Fukushima, Japan

John Gurd, University of Manchester, UK

Terry Harmer Queen's University, Belfast, UK

Andrew Harrison, Ian Taylor, Cardiff University, UK

Philip Healy, University of Cork, Ireland

Jayantha Herath, St. Cloud State University, MN, USA

Michael A. Heroux, Sandia National Laboratories, Avon, MN, USA

Jerry W. Hull, RAND, CA, USA

Costin C. Iancu, Lawrence Berkeley National Laboratory, CA, USA

Ilya Ioshikhes, Ohio State University, Columbus, OH, USA

Jesús A. Izaguirre, University of Notre Dame, IN, USA

Jaako Jarvi, Texas A&M University, College Station, TX, USA

Hai Jin, Huazhong University of Science and Technology, China

Sunil John, University College, Cork, Ireland

Alexey Kalinov, Institute for System Programming, Russia

Shivkumar Kalyanaraman, Rensselaer Polytechnic Institute, Troy, NY, USA

Kenji Kaneda, University of Tokyo, Japan

Helen Karatza, Aristotle University of Thessaloniki, Greece

Katherine Keahey, Argonne National Laboratory, Argonne, IL, USA

Tahar Kechadi, University College, Dublin, Ireland

James Kennedy, University College, Cork, Ireland

Attila Kertesz, Hungarian Academy of Sciences, Budapest, Hungary

David E. Keyes, Old Dominion University, Norfolk, VA, USA

Peter Kilpatrick, Queen's University, Belfast, UK

C.-T. King, National Tsing Hua University, Taiwan

Jacek Kitowski, AGH, University of Science and Technology, Krakow, Poland

Matthew G. Knepley, Argonne National Laboratory, Argonne, IL, USA

Tevfik Kosar, Louisiana State University, Baton Rouge, LA, USA

Stefan Kral, Technical University of Vienna, Vienna, Austria

Mukkai Krishnamurthy, Rensselaer Polytechnic Institute, Troy, NY, USA

C.-H. Lai, University of Greenwich, UK

Walter Landry, University of California, San Diego, CA, USA

Hans Petter Langtangen, Simula Research Laboratory, Lysaker, Norway

Alexey Lastovetsky, University College, Dublin, Ireland

Lie-Quan Lee, Stanford Linear Accelerator Center, Menlo Park, CA, USA

J. Lee, Polytechnic University of Hong Kong, China

Chris Lengauer, University of Passau, Germany

H.M. Liddell, Queen Mary, University of London, UK

Shiding Lin, Microsoft Research Asia, Beijing, China

H.X. Lin, Delft University of Technology, The Netherlands

P. Lin, National University of Singapore, Singapore

A. Loo, Lingnan University, Hong Kong, China

Andrew Lumsdaine, Indiana University, Bloomington, IN, USA

Malik Magdon-Ismael, Rensselaer Polytechnic Institute, Troy, NY, USA

Victor Malyshev, Russian Academy of Sciences, Russia

- William Maniatty, University of Albany, State University of New York, Albany, NY, USA
- Ami Marowka, Hebrew University of Jerusalem, Israel
- Tim Mattson, Intel, DuPont, WA, USA
- Bernd Mohr, Research Center Jülich, Germany
- John Morrison, University College, Cork, Ireland
- Rod Moten, Colgate University, NY, USA
- Lenore Mullin, University of Albany, State University of New York, NY, USA
- Traian Muntean, University of Marseille, France
- Dave Musser, Rensselaer Polytechnic Institute, Troy, NY, USA
- Hidemoto Nakada, Advanced Industrial Science and Technology, Tsukuba, Japan
- Tatsuo Nakajima, Waseda University, Japan
- Wahid Nasri, Faculte des Sciences de Tunis, Tunisia
- Gert Nelissen, ELSYCA NV, Zellik, Belgium
- M. Ng, Baptist University, Hong Kong, China
- Alex Nicolau, University of California, Irvine, CA, USA
- Joerg Nolte, Fraunhofer, FhG-FIRST Berlin, Germany
- Charles Norton, NASA, Jet Propulsion Laboratory, Pasadena, CA, USA
- Padraig O'Dowd, University College, Cork, Ireland
- Toshiro K. Ohsumi, Colgate University, Hamilton, NY, USA
- Ron Olsson, University of California, Davis, CA, USA
- Can Ozturan, Bogazici University, Turkey
- Marcin Paprzycki, Oklahoma State University, Norman, OK, USA
- A.K. Parrott, University of Greenwich, UK
- Yash Patel, Imperial College, UK
- Adarsh Patil, University College, Cork, Ireland
- Cesare Pautasso, Institut für Pervasive Computing, Zürich, Switzerland
- A. Paventhan, University of Southampton, Highfield, Southampton, UK
- Srinath Perera, Indiana University, USA
- K.A. Pericleous, University of Greenwich, UK
- Dana Petcu, Western University of Timisoara, Romania
- Serge Petiton, Ecole Polytechnique Universitaire de Lille, France
- David A. Power, University College, Cork, Ireland
- Keith Power, University College, Cork, Ireland
- Roldan Pozo, National Institute of Standards and Technology, Gaithersburg, MD, USA
- Omer F. Rana, Cardiff University, Cardiff, UK
- Craig E. Rasmussen, Los Alamos National Laboratory, Los Alamos, CA, USA
- S.S. Ravi, University of Albany, State University of New York, NY, USA
- Martin Rem, Embedded Systems Institute, The Netherlands
- Yves Robert, Ecole Normale Supérieure de Lyon, France
- Marcel Rosu, IBM T.J. Watson Research Center, Hawthorne, NY, USA
- Damian W.I. Rouson, The City University of New York, NY, USA
- Rizos Sakellariou, Manchester University, Manchester, UK
- Joel Saltz, Ohio State University, Columbus, OH, USA
- Eunice Santos, Virginia Polytechnic Institute & State University, VA, USA
- Isaac Scherson, University of California, Irvine, CA, USA
- Sibylle Schupp, Chalmers University of Technology, Göteborg, Sweden
- Andrew Shearer, National University of Ireland, Galway, Ireland
- Mark Shephard, Rensselaer Polytechnic Institute, Troy, NY, USA
- Matthew Shields, Cardiff University, Cardiff, UK
- H.J. Siegel, Colorado State University, Fort Collins, CO, USA
- Horst Simon, Lawrence Berkeley National Laboratory, Berkeley, CA, USA
- Henk Sips, University of Delft, The Netherlands
- David B. Skillicorn, Queen's University, Kingston, Ont., Canada
- Leonel Sousa, Universidade Tecnica de Lisboa, Portugal
- Alan Stewart, Queen's University, Belfast, UK
- J.C. Sun, Chinese Academy of Sciences, Beijing, China
- Frederic Suter, INRIA Nancy, France
- Sabin Tabirca, University College, Cork, Ireland
- Atsuko Takefusa, Tokyo Institute of Technology, Japan
- Nicu Tapus, University "Politehnica" Bucharest, Romania
- Osamu Tatebe, University of Tsukuba, Japan,
- Frank Terpstra, University of Amsterdam, Amsterdam, The Netherlands
- James Tersco, Williams College, Williamstown, MA, USA
- Bernard Tournel, University of Science and Technology, Lille, France

Denis Trystram, ID-IMAG, Grenoble, France  
Marek Tudruj, Polish Academy of Sciences, Warsaw, Poland  
W.M.P. Van der Aalst, Eindhoven University of Technology, Eindhoven, The Netherlands  
Brian VanderHeyden, Los Alamos National Laboratory, NM, USA  
Carlos Varela, Rensselaer Polytechnic Institute, Troy, NY, USA  
Cristina Videira Lopes, University of California, Irvine, CA, USA  
Mirko Vukovic, General Electric Research and Development Center, Schenectady, NY, USA  
Edward Walker, BBN Laboratories Inc., Cambridge, MA, USA,  
M.Q. Wang, Fuzhou University, China  
Jeremiah Willcock, Indiana University, Bloomington, IN, USA

Roman Wyrzykowski, Technical University of Czestochowa, Poland  
W.B. Xu, Southern Yangtze University, Wuxi, China  
C. Xue, Southern Yangtze University, Wuxi, China  
Laurence Yang, St. Francis Xavier University, Antigonish, NS, Canada  
Bulent Yener, Rensselaer Polytechnic Institute, Troy, NY, USA  
Jia Yu, The University of Melbourne, Vic., Australia  
Xia Yunni, Peking University, Beijing, China  
Mohammed Zaki, Rensselaer Polytechnic Institute, Troy, NY, USA  
Zheng Zhang, Microsoft Research Asia, Beijing, China  
J. Zhang, University of Kentucky, Lexington, KY, USA  
Z. Zhao, University of Amsterdam, Amsterdam, The Netherlands
