## Over 500 Libraries to Get Digital Boost in Tamil Nadu Soon

In a first across the country, 152 virtual reality devices worth INR65.54 lakh have been introduced in 76 libraries across Tamil Nadu. This aims to give readers an enhanced reading experience and also attract children into the world of books. The directorate of public libraries additionally plans to provide internet connection at all the libraries, introduce digital library facilities in 500 libraries based on footfall and also start doorstep delivery of books. The directorate is also planning to introduce digital libraries in 500 libraries across the State. At present, only Anna Centenary library has a digital library with more than 3,000 books. However, this is still in the discussion stage and funds will be allocated soon, said the officials.

## Delhi Government Launches India's First Virtual School, Invites Admission Applications

Delhi Chief Minister Mr Arvind Kejriwal on 31 August 2022 launched India's first virtual school—Delhi Model Virtual School—affiliated with the Delhi Board of School Education. As per the announcement, the school has been launched for children who cannot go to school physically for any reasons. The facility will also be used for preparing students for competitive exams like JEE, NEET, and CUET. To access the platform, students will be provided an ID and password using which they can login and attend classes. The platform will also provide facilities like digital library, recorded lectures, etc.

## Mumbai: Tata Hospital to Set Up National Digital Library

With the aim of collating patients' records in all the 270 hospitals across India under the National Cancer Grid (NCG), the Tata Memorial Hospital (TMH) has decided to set up a national digital library in its building, which will be the main hub for all data records. The TMH signed a memorandum of understanding (MoU) with the Koita Centre for Digital Oncology (KCDO) on 26 August 2022. The Koita Foundation will help further digitalize medical records by introducing artificial intelligence, which will provide better treatment accessibility to patients. This will help to create a data bank of the patients suffering from different types of cancer across India which will help in research and policy-making.

## Cabinet Approves Widening access of the Traditional Knowledge Digital Library (TKDL) Database to Users, Besides Patent Offices

The Cabinet chaired by the Prime Minister, Shri Narendra Modi, has approved the 'Widening access of the Traditional Knowledge Digital Library (TKDL) database to users, besides patent offices'. The opening up of the TKDL database to users is an ambitious and forward-looking action by the Government of India. This will be a new dawn for Indian traditional knowledge, as the TKDL will drive research and development, and innovation based on India's valued heritage across diverse fields. The opening up of the TKDL is also envisaged to inculcate thought and knowledge leadership through Bharatiya Gnana Parampara, under the New Education Policy 2020.

### **Flying colours: a digital feather library for Indian birds is taking off**

A digital feather library has just been fluffed out. It contains high-resolution images of wings and feathers from at least 50 species, with more being

added. Alongside each colourful spread, viewers can find details of the bird's weight, body length, beak width, etc, along with the date, location and cause of death. A first-of-its-kind repository for Indian birds, the aim is to aid avian research and help in the niche field of feather transplants. The resource is accessible to the public free, and aims to also help birders identify species they've spotted. <Featherlibrary.com> was launched on 15 November 2021 and will act as a reference point for feather transplants. Based on availability, actual feathers can also be drawn from the library.
